Welcome Back!!

So there I was having barely made it thru my 3rd & final R-Flight and worn to a frazzle. Fortunately I was issued a week within which there was nothing to do 'cept smile for Propaganda Photos.

While procrastinating, this degenerate Janitor queried "K-Det,...How come ya'll got the best instructors, the largest instructor per student ratio, finest classrooms, books, and students, yet ^{week} you start a month early, graduate a month late, and go to Saturday classes in between?"

"Hush ~~YOUR MOUTH,~~ man!", quoth I, hustling him into the sterile quiet of my room. "You don't want THEM to hear that. After all, if a change were to come, THEY wouldn't give us more leave, it would be another (YECCH) summer program to waste what little summer we get."

Whereupon with malice and forethought he swept his dirt pile into my room, destroying my carefully constructed dust pattern, and then scuffled away.

Bitter?

The Dodo Dirty Deal of the Day

Fun?

The Quadruple 'D' goes to those bunch of boys fond of merriment-the P.E. Department. This is the first time for the men in white trunks to appear in our "hit" column (but men take notice), and we hope to see much more of them as the semester "progresses". The PED was brought to our attention by that memorable quote of the head of the Intramural Dept., (the ID if you will) "The Government, Uncle Sugar, has spent \$9 million to give you guys lockers, so by God you're gonna use them. There will be no more dressing in the dorms, it wastes time (?). Besides you guys don't have shower facilities do you?" Yes, that's right sir, and if God wanted us to fly he would have given us wings. This all brings us to the point, why is so much money spent on and by the Muscle Shop (new phrase) for so much "good stuff" to produce so much misery? Why can't we have a good time playing football or tennis? Don't we get enough regimentation "upstairs"? Come on guys let us enjoy something. Remember: "alls that's really important is that you have a good time-R.P."

ATTN OF:

Captain Negroni's Brain/Call Collect, Today

SUBJECT:

Poop Sheet #1 (Clarification of Classifications)

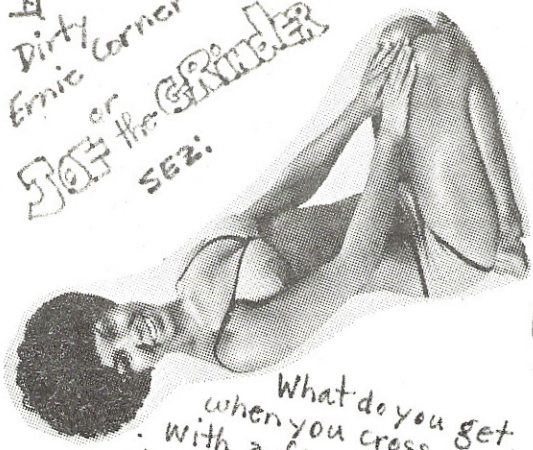

TO: All interested peoples, none excluded

1. It has been brought to the attention of the undersigned that, whereas a certain degree of incomprehensible terminology has been employed to classify and/or group Basic New Cadets of the class of 1974, certain clarifications are in order so as to clear up any misunderstanding arising from the employment of the heretofore alluded terms, to wit: Rumble and Potential Loss.
2. In the first and foremost place a Rumble is a New cadet who by physical mannerisms, verbal effusion and or psychic powers conveys to you the idea that he "don't wanna be here". This definition is effective from now until a date to be determined at a later time. Will inform.
3. Secondly, the term Potential Loss is an individual who may be lost to the AFA before the deadline established of 1 October 1970 AD. Now, let me make one thing perfectly clear, this definitions are made so that in matters not conducing to modern exponential hieroglifhics one would necessarily if he be in a circumspective frame of trscendental rationality find it, completely irrevocable that one through pertinacity, ought to have the ascendancy to in order to attain the sapience of such of status aluded above herein.
4. Occassions may arise in which the use of a third term, i.e., potential rumble may be called for. The usage of this category is somewhat unclear in the mind of the writer, however suffice it to say that it should not be misconstrued with others. A Potential Rumble is a cadets who, even though he does not say anything to the contrary may do so at a time and place of his selection. What you should do is watch out for this one.
5. Another cadets who bears wtaching is one who may experiment a loss of potential. This is the easiest of all soluble cases since it has a solution. The solution is left to the AOC as an exercise.
6. Finally we have the rumbling potential. More will be said about him in my Poop Sheet #2.

Sincerely yours,

What do you get when you cross an AOC with a flower? A blooming idiot...

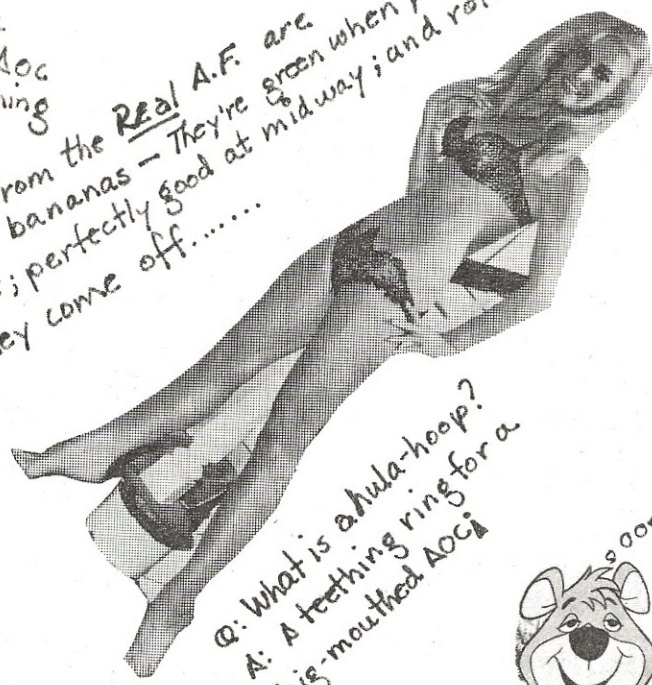

AOC's from the Real A.F. are alot like bananas - They're green when put on a plane; perfectly good at mid-way; and rotten when they come off.....

Have you heard... Jimmy? about the queer teacher who ate his shack-up?

What happens when you cross an elephant with a cow? We don't know but you have to stand up to milk it!

under what section of the Dodo do they print AOC obits? Under Civic Improvement.

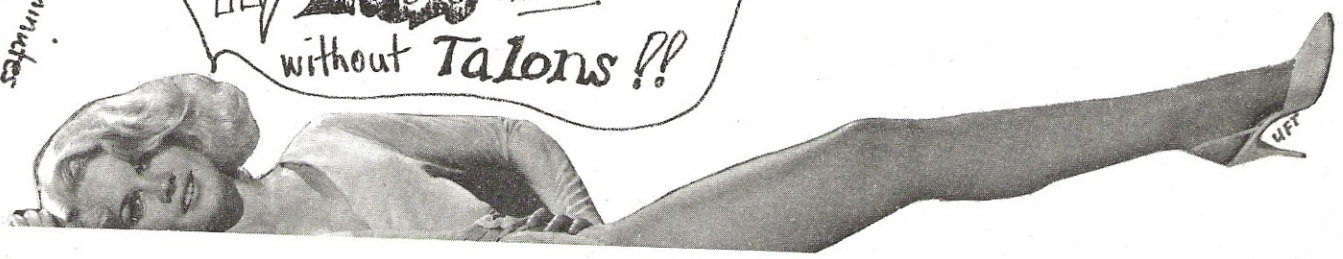

Q: What is a hula-hoop?
A: A teething ring for a big-mouthed AOC!

Why do AOCs only have 5 minutes for coffee breaks? Any longer and they would have to be completely retrained....

When Mrs. Mac was asked, "what do you do with Red China?", she replied, "You put it on a purple tablecloth, of course!"
