Raps Scientists

Air Force Brig. Gen. Barney Olds, commandant of cadets at the Air Force Academy, has spoken out against scientists who put "too much useless gadgetry in warplanes." He called them a "cult of mad scientists." Olds made the statement during a conference with Navy fighter pilots at the Miramar Naval Air Station in San Diego.

He ~~she~~ will  
always  
remember  
you...

Would you be more careful if  
it was you that got pregnant ?

~~he's~~ <sup>he's</sup> sitting in the doctor's office, scared, waiting for the results of the test. ~~She'll~~ remember you.  
When ~~she~~ tells ~~her~~ <sup>his</sup> that ~~she's~~ <sup>his</sup> pregnant, asks about ~~her~~ <sup>his</sup> plans for prenatal care and delivery. ~~She'll~~ remember you then.  
While ~~she~~ <sup>he</sup> waits out the pregnancy in some other city ...  
Or searches frantically for someone who will do an abortion, legal or illegal ...

Or faces the disbelief and anger of ~~her~~ <sup>his</sup> parents ...  
Or lives from day to day with the sick heaviness of an unwanted, unplanned pregnancy — ~~she'll~~ remember you.

~~She'll~~ remember all the things you said, all the things you talked about, but that you didn't talk about **contraception**.

~~She'll~~ remember your long conversations about love, honesty, the new morality, personal freedom. ~~She'll~~ remember that you, or ~~she~~, talked about marriage, but that you're not ready yet (not now, and for God's sake, not to ~~have~~ <sup>him</sup>). ~~She~~ may remember that you coaxed, or argued, or threatened.

Any honest, responsible relationship that includes sex also includes **contraception**, and this means that both of you go to a physician or clinic for medically supervised assistance. If ~~she's~~ too embarrassed, too shy, too insecure to get contraceptive help, you have only one honest choice. You wait or you get another ~~girl~~ <sup>guy</sup>. If you're the one who's too embarrassed (you don't really know ~~her~~ <sup>him</sup> well enough to discuss it?) why don't you just wait a few years until you grow up.

But don't talk to ~~her~~ <sup>him</sup> about love, honesty, or personal freedom. Without a decision on **contraception**, that kind of talk is a coward's lie.

When ~~she's~~ signing the relinquishment papers for ~~her~~ <sup>his</sup> baby (your baby), or while ~~she's~~ waiting for ~~her~~ <sup>his</sup> abortion to be approved, ~~she'll~~ remember that lie.

If you know that you'll always be remembered, is that what you want to be remembered for?

THANK ~~ME~~ <sup>MGG</sup>

THE DODO DIRTY DEAL OF THE DAY

We, on the Dodo staff, are honored and not a bit surprised to award our D<sup>4</sup> once again to the Muscle Shop. The P.E.D. was running neck and neck with the A.O.C.'s, the Mech Dept., and the M.T. Dept. until that fateful day of the Snow Bowl games. To refresh your memory, the Snow Bowl games were those intramural games played in 20 degree weather and in driving snow. The "reasoning" behind this was ~~no names, please~~ power had been usurped by SEC. FLT. and usurping is a dirty word in ~~ibid~~ vocabulary. So, in order for him "to go back with his self-respect" he ordered the contests to be played so he could, later on, stop them. This is all well within the military tradition of killing initiative and ruining logical thinking.

This, you would think, would be enough to endear this Dept. with the Cadet Wing forever. But it goes far deeper. Remember now back to that dreadful day of infamy when the Wing first tried to usurp (shudder) the PED power. It was extremely simple (for that matter-logical), all the cadet had to do was dress in the dorm and sneak through the O-Course and he was free to romp and play. Not so for the PED was out in force, behind every tree and shrub they waited in ambush. 1545 came and all heck broke out, cadets fell like flies to the power of the form 10. It was a massacre. Long live the Wing, oh long may it fly (in our expensive locker rooms).

Monster of the <sup>DoDo</sup> EXCLUSIVE!!  
 Air Garden!! PART I of A CEREAL (As Advertised...)

The Air Gardens is empty now, or so you think. Yet only a few weeks ago an incredible story was mysteriously brought to the attention of the DoDo staff.

Quite by accident, actually, I was skulking over the Terrazo on my way to a nonchargeable CDF when a panley doolie careened off the flagpole on a dead run.

"Hark!" said I, I said.

"Sir," panted the doolie, "I have just seen a terrible apparition!"

Not wishing to appear stupid, I let him continue.

"Sir, IT was awful! I heard a splashing and gurgling sound and raced over to see what it was and..

He passed out.

In compliance with IED I wrote him up for gawking, careening into government property, and grossly falling out on the Terrazo. Then, realizing that his was no ordinary rumor, I decided that this was a job for the DoDo ALERT CREW!!!

CoNtInUeD next issue!

What does the monster of the Air Gardens look like? What does your ACC look like? Will it have SIDEBURNS? Who is the DoDo ALERT CREW??

Who Cares?

LOOK out for the next issue! (for it may never come)

CATCH 22 REVISITED --- If you have short hair you're crazy. But if you claim you're insane when you have short hair so that you can get long hair you must be sane to want it so you must continue to have short hair because you're not insane so you must be insane only you can't say so because doing that would only prove your sanity. Catchy??? You bet. But its the best explanation we could think of yet.
