PHILADELPHIA—A 22-year-old go-go dancer set the tone for Navy's thrilling 11-7 victory over Army Saturday at John F. Kennedy Stadium.

Karen Legato, buxom, bikini-clad and breathless after she ran onto the field at the coin toss before the opening kick-

off, kissed the stunned captains of both teams while a crowd of 95,151 and millions more watching on national television ogled.

"The Army captain didn't like it," said Miss Legato, who lives in Pittsburgh and performs at University Park, Pa., "but the Navy captain loved it."

REMARKS (Continue on separate sheet if additional space is required)			
<p>1. The offense, "Missing the Noon Meal Formation, 29 Oct 70." is correct.</p> <p>2. Being an overworked, tired, on-the-go Cadet with lack of proper daily relaxation, I thus have the ability to fall asleep with only seconds notice. At times this is very much an asset, but at other times it only proves to be a hinder.</p> <p>At approximately 1105 hours, give or take 5 minutes, I leveled off at exactly 16 3/4 inches above 5th floor altitude and proceeded to turn on my autopilot. Informed by experience and knowledgeable of my ability to awake at 5 to 4 minutes to Assembly, my roommate did not worry and left for ranks. The minute callers remained unnoticed, even the one 2 feet from my door. The CQ being alert and observant noticed my presence in the rack and informed me that I was late. Not being responsible for my actions within 2 minutes after being awakened, I put on the wrong uniform and remained in my class shoes.</p> <p>Upon leaving the dorm I was halted by an unknown AOC, not wearing (though carrying) his white gloves, who proceeded to give me the 3rd Degree (i.e., "Who are you? What <u>outfit</u> are you in? Where were you? You're in the wrong uniform! Your shoes are not up to par (still in class shoes)!!! The 2 minute amnesty being up and taking into account that he didn't mention my hair or my burns, I could not rationalize smashing that kindly gentleman.</p> <p>However, there was still time to reach the squadron and join the ranks, but my desire to change into the proper UOD and proceed to the meal without drawing further attention superseded my desire to make the squadron nonuniform and unsymmetrical. I immediately ran into a nearby stairwell and left my Alpha Cap unguarded and unsecured. I drew my nonissue but blue Watch Cap, which is on continual alert in my Parka, and quickly changed into the proper UOD. Dazed by the turmoil and excitement I altered my Flight Plan and sauntered via the Air Gardens to the Dining Hall in time to thank Ralph for ending my frustration as the Wing was given, "Gentlemen, you are at Ease"!!!</p> <p>3. The offense was unintentional.</p>

DEDICATION

DODO FIRST AID TIPS

With the ski season soon to be descended upon, the DODO brings you some timely reminders that you can use that in those first couple of minutes could mean the differential between life or not.

For fainting, rub the person's chest, or if a lady, rub her arm above the hand.

For dog bites, put the dog away for several days. If he has not recovered, then kill it.

For snake bites, bleed the wound and rape the victim in a blanket for shock.

For asphyxiation, apply artificial respiration until the patient is dead.

For fractures, to see if the limb is broken, wiggle it gently back and forth.

For head colds, use an agonizer to spray the nose until it drops into your throat.

PENNY SLIPPERS

Here's a new way to develop Dorm dis traction. It's called penny slipping. When those strivers across the hall are deep in thought, merely zing a penny under their door and across the floor. The results are fantastic, concentration will shatter! Make sure you then disappear, cos some guys can't take a joke. WARNING: Penny slippers are not to be confused with penny loafers ~~or~~ or cheap sliders.

WANTED:

DEAD OR DISABLED.....

Butch Leroy and his new dawn staff have tried to upset the military machine by basing changes and decisions on logic. He has violated the adage, "You can't fight city hall!" He has shown great bravery in the face of tradition. Surprisingly he has not appeared on the 10 MOST WANTED LIST before. This may be a new trend in the emergence of unknown but deadly big time operators on the Blue market. Shown here he is trying to motivate ~~he~~ his turkey plane ^{to} launch another quadrangle terror raid.

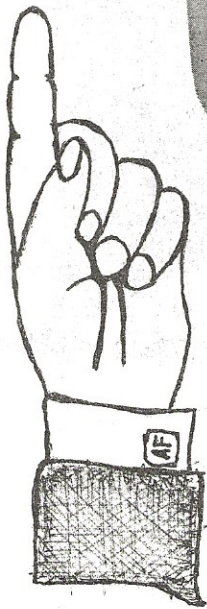

AND NOW A WORD FROM OUR SPONSOR.

IS
ALEXANDER CROMWELL
STILL ALIVE?

In 1643 Alexander Cromwell led the Royal Roundheads against the Establishment. He started on a world crusade to save it from the Barbers in 1650 when he was struck with the mysterious South African disease "Sickness of Horn".

A new book Cromwell Lives by Larph Erpson presents evidence that Cromwell's death was staged by a communist subversive organization and that he is still alive.

I CAN'T BEAR THIS PLACE.

THERE'S NO PLACE LIKE NUMB.

Rin-Tin-Tin rusted to death.

PLAYBOY: a person noted for his utter devotion.

Alexander Cromwell was commissioned a Cavalier in 1647 and caused the first problem with hair.

Then there was the 4th who had remained true to his hometown sweetheart. Just before Christmas he received a Dear John from her, asking that he please return her picture. Feeling sorry for him, the guys in the squadron collected all of their photos and pin-ups and sent them to her with the following note: "I couldn't remember which one is yours, so pick it out and return the others."

They love it.

YOUR COUNTRY NEEDS
YOU

Pulling the Cork
It only hurts the first time.

Further study by the DODO has revealed some startling questions:

What happened to the soldier who was wearing Cromwell's hat and was last seen charging a fog bank during WWI??

Does part of him really live on in every can of Cavalier shoe polish?

Is his spirit for hair really harbored in the Nugh Dorm Tunnels?

For the answer to these and other irrelevant questions consult next month's DODO.

Dodo Dirty Deal of the Day

This time our quad D goes to Greasy Mitch's , by popular demand I might add. Let me warn you right now, if you have a history of a weak stomach (T-41 jocks beware) don't read any further. It has been brought to our attention that our place of meals, dining hall if you will, has not kept up the standards of "ultra-clean" we all live in. It seems as though one of our illustrious cadet-mates was slurping his soup a few weeks ago and found a very interesting additive that was not mentioned on the menu. This little ingredient was "luby", "clam", or to be more precise a globule of mucus. No matter how ludicrous that sounds, the remark that the head waiter came up with is even more so: "Oh that's not too bad, I've seen alot worse around here." It kind of makes you think about the place we eat, doesn't it? This little episode coupled with last year's dead rat incident makes Mitch's more than worthy for our award of disgust (or disgusting award, depending on which end your's on.)

YOUR FRIENDLY MATH DEPARTMENT
UNITED STATES AIR FORCE ACADEMY

SUBJECT: P.S. To the Final - Fall 1963

TO: Our Math Students

We, your friendly math instructors, wish to share with you many unique and ingenious bits of wisdom which we found on your exams during the semester. Study them carefully, and be ready to use these new techniques whenever you feel they will do the job.

$$x = \frac{\log 3.10}{\log 2} = 1.52$$

$$\frac{1}{a+b} = \frac{1}{a} + \frac{1}{b}$$

$$\sin(A+B) = \sin A + \sin B$$

$$\cos(A+B) = \cos A - \cos B$$

$$\sqrt{80} = \sqrt{81-1} = \sqrt{81} - \sqrt{1} = 8$$

$$\cancel{2} \cos \frac{\theta}{\cancel{2}} = \cos \theta$$

$$\frac{\cancel{\sin} \cancel{2} x}{\cancel{2} \cancel{\sin}} = \sin x = 6$$

$$\log(a+b) = \log a + \log b$$

$$\log(a+b) = \log ab$$

$$x^2 - 2x - 3 = 0$$

$$\therefore x^2 - 2x = 3$$

$$\therefore x(x-2) = 3$$

$$\text{so } x=3 \text{ or } x-2=3$$

$$\text{and } x=3, 5$$

$$\frac{\cancel{5} + \cancel{3}}{\cancel{5} - \cancel{3}} = \frac{+}{-} = -$$

$$\frac{\cancel{6} 4}{\cancel{1} \cancel{6}} = 4$$

$$\frac{d}{dx} e^x = x e^{x-1} + C$$

$$\infty - \infty = 0$$

$$\frac{f'(3)}{f'(0)} = \frac{3}{0} = 3$$

$$\frac{dy}{dx} = \frac{y}{x}$$

$$\sin^{-1} \theta = \frac{1}{\sin \theta} = \cos \theta$$

WE of the DODO Staff feel it is our duty to publicly humble ourselves. We are guilty of a most notorious, degrading and humiliating crime against our readers, i.e., helping the Taloin. However, without our gracious and generous assistance in supplying the material for their Angel Flight feature, essential aid for the Butch Kadetty story, and other support, the last Taloin would have never made it to the presses. We realize they do not give credit where credit is due, nonetheless we are deeply hurt and still undecided as to whether we should expose "Charlie Baby" or not, among other things. So please accept our sincere apology (though we really don't give a rat's ~~xxx~~) for ourrrr contributing to such a little read, valueless publication as the Taloin.
