EDITORIAL

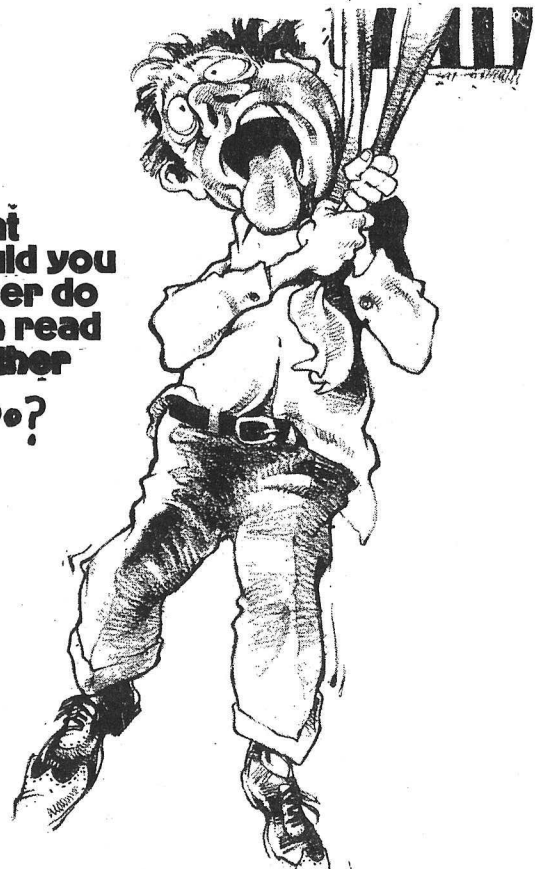

with this issue, the staff of the ill-famed DODO call it quits for another year. In case you are one to notice- we've actually got a staff!!! Perhaps our numbers will grow so that next year we can put out one of these 'rash of trasn' mags once per month.

All seriousness aside, as the editors of DODO we sincerely wish '80 all the luck and we hope you carry fond memories of at least the DODO. Just remember, one day we'll all look back and laugh. So it is with a tear and a hack that we see you go- now we get the concrete lot!

we appreciate any feedback that you out there may have- at least we can send it to our censors. See ya next year!!!

J.D. Jim

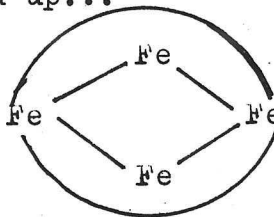

What would you rather do than read another DoDo?

HEY SPORTS FANS!!! -are you going on ac-pro for the umteenth time? Do you feel you ran out of luck at your last class committee? Well, DoDo staff is printing the entrance examination to POLAND U. as a viable alternative. For those of you laughing- don't!!! It is alot harder than it first looks. Here are two examples to warm you up...

Editor's Note: All of these can be done and actually stand for something. So just because you cannot work some of them, don't think we at media are trying to pull a fast one. In the event you don't believe us- just call X4644, and we will be happy to relieve your weak mind!

# RUMOUR HAS IT...<sup>④</sup>

RUMOUR HAS IT that the Academy 'UPPERCLASS LOUNGE' will be renamed the 'UPPERCLASS BAR' and will begin serving real alcohol to all patrons age 21 years and over, sometime within the next millenia (we are not bagging you). Talking to the people who know, it was disclosed that two of the featured drinks will be the 'Fill-ups Screwdriver' and the 'Pile-driver'.

## FILL-UPS SCREWDRIVER

①

- 12 ounces of Fill-Ups Melk of Indonesia mixed with an ounce of Kentucky water.
- especially good after a delicious Mitchell Hall-Famous meal.

②

## PILE-DRIVER

- 8 ounces of Prune Juice mixed with 1/2 ounce of water imported especially from Jaurez, Mexico, topped-off with a plump, juicy sunfried Prune.
- served best with open-air parties

\*In the unlikely event that DODO staff learns any further informashun on this particular rhomer, we will let... u no..

IN THE EVENT YOU DRINK TOO MUCH (NEVER HAPPEN-RIGHT) - HERE IS SOME OF ⑤  
DODO'S advice on...

# HOW TO HANDLE A HANGOVER.

1) **WAKE UP EARLY**

2) **MIND CONTROL**

3) **Go  
For  
It!!!**

4) **KEEP YOUR LIFESTYLE IN HIGH GEAR**

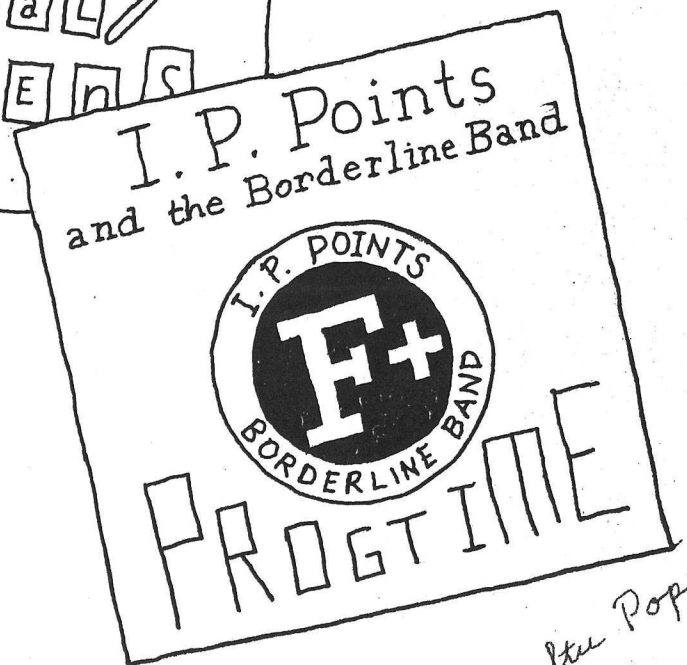

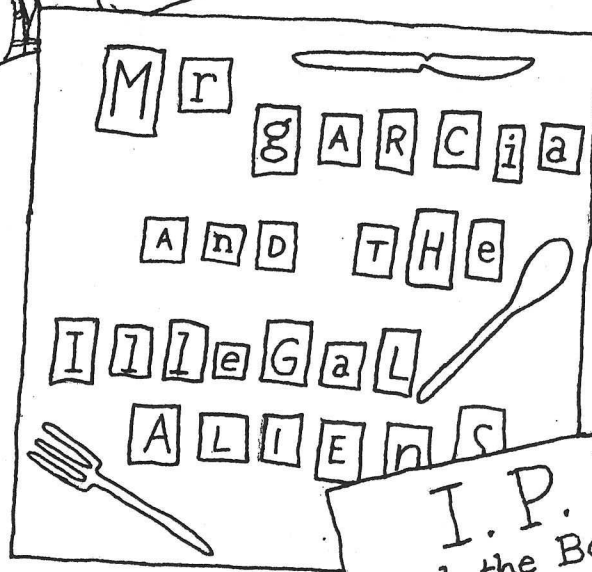

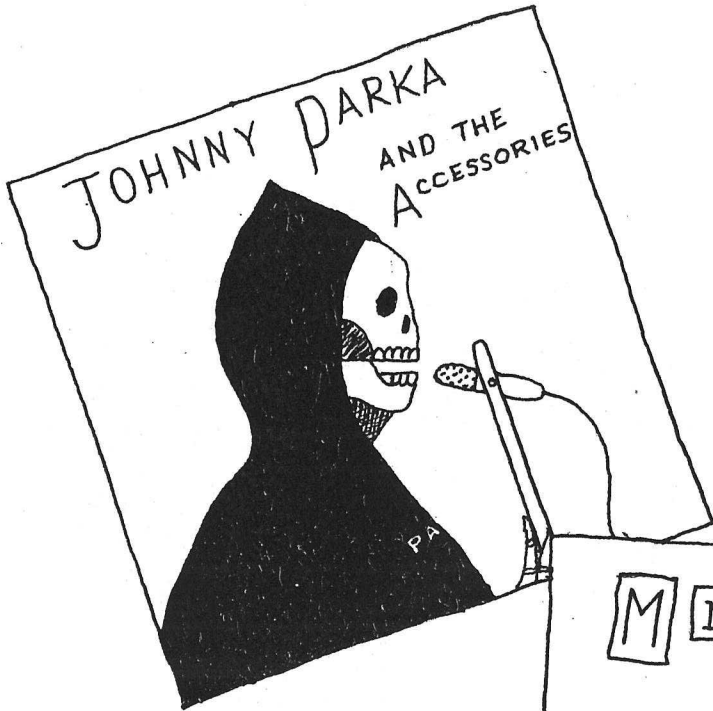

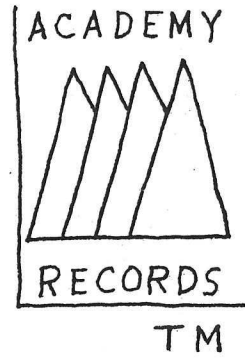

5) **WALK A STRAIGHT LINE**

6) **LIVE WITH IT.**

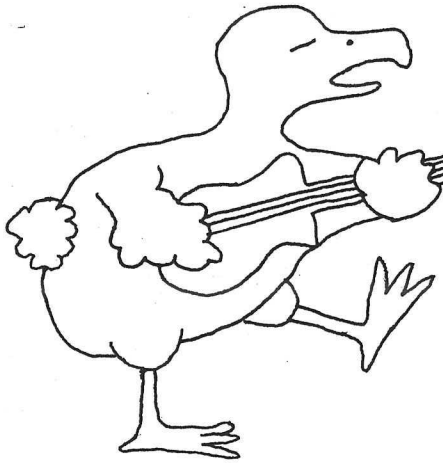

7) **Learn how to read wine labels**

NOTE: IN THE EVENT NONE OF THESE SURE-FIRE REMEDIES WORK -  
YOU ARE A HOPELESS, REPEAT HOPELESS, CASE. DUNT!!

# Record Review

7

by Larry Latelights

"LIVE AT THE FIELDHOUSE" by Johnny Parka and the Accessories  
I bet you're thinking "Great Comm, not another LIVE album," right? Well, you're wrong, mister. Johnny Parka is one of the most dynamic new wave recording artists of the year. The live version of "U.O.D." will flip your watch cap and the "Zippers Tucked In/Gloves Tucked In" medley is guaranteed to make you wish Johnny Parka was in season all year 'round!

"PROGTIME" by I. P. Points and the Borderline Band  
A great follow-up to their last LP, "FUZZY STUDIES," I. P. Point's long-awaited "PROGTIME" shows a definite improvement in the band's distinctive style of music. "Gimme E.I." and "Ac Pro" are sure hits while the title cut "Progtime" is an instant classic. This is the band's first album in over a year, due mainly to Points' insistence that the band stop working for a few months to participate in the "How to Sing" program. The program seemed to work, and it looks like I. P. Points and the Borderline Band will be with us for at least another semester.

"TEN AND THREE" by Heavy D and the Restrictions  
In the tradition of acid-rock groups like Bethlehem, Speed, Van Wailin' and Uranium Balloon, Heavy D and the Restrictions give us a lot of decibels and very little else. But so what? I happen to like the music - I mean, it beats the dean out of disco any day, right? Anyway, Heavy D has been "on tour" for the past three years and "TEN AND THREE" is their first album to appear since 1977's "SIGN HERE" double LP. "TEN AND THREE" may be the group's last album for Academy Records as their four-year contract with the company ends in June. Rumor has it Heavy D and the Restrictions may then sign on with either Louie Records or Civilian Sounds, Inc. Time will tell.

"MR. GARCIA AND THE ILLEGAL ALIENS" by Mr. Garcia and friends  
Mr. Garcia's premier album is, to say the least, "sour" and "unacceptable." However, Mr. Garcia's P.R. man, Mr. Sanchez, said that according to a Form O-96 survey the album has been rated (quote) "fast, neat, average, friendly, good, good" (unquote). But you know about those O-96 surveys. They're about as reliable as a SAMI schedule. We'll just have to wait and see if this disco album makes the C-Store's "top forty."

"10 day turn around CCQ?"

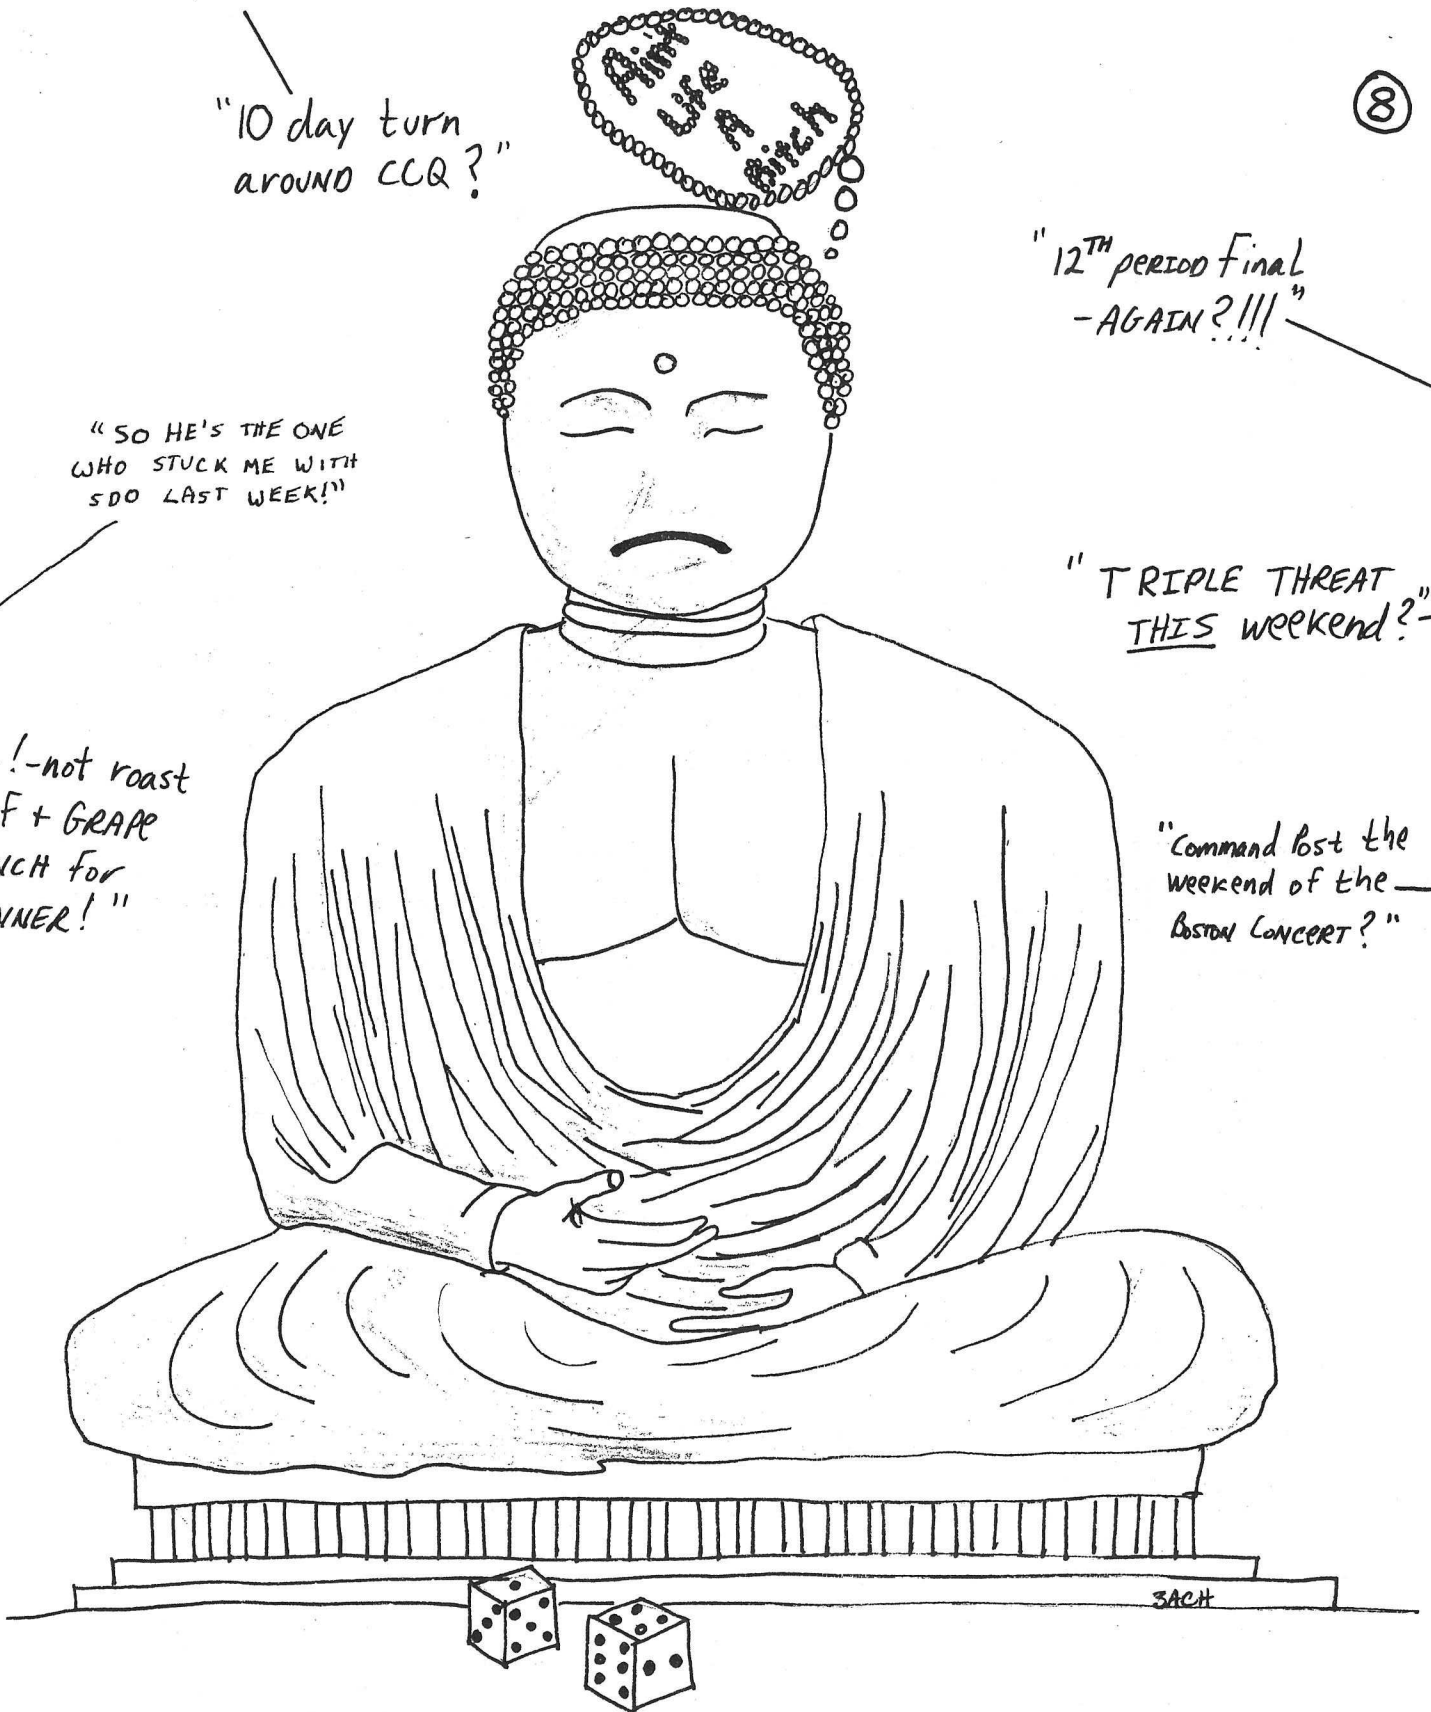

"12<sup>TH</sup> PERIOD Final -AGAIN?!!!"

"SO HE'S THE ONE WHO STUCK ME WITH SDO LAST WEEK!"

"TRIPLE THREAT THIS weekend?"

"No! -not roast -beef + GRAPE PUNCH for DINNER!"

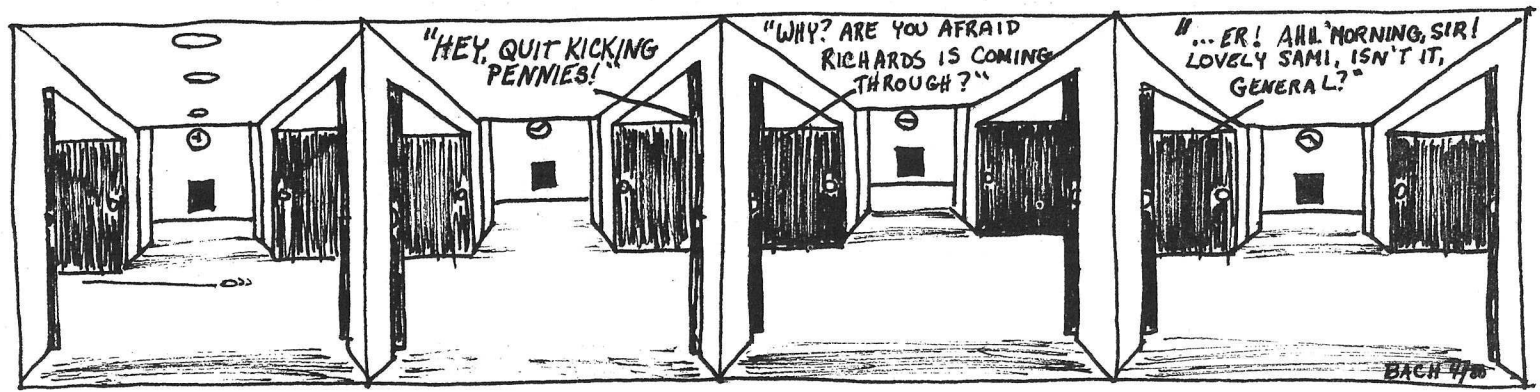

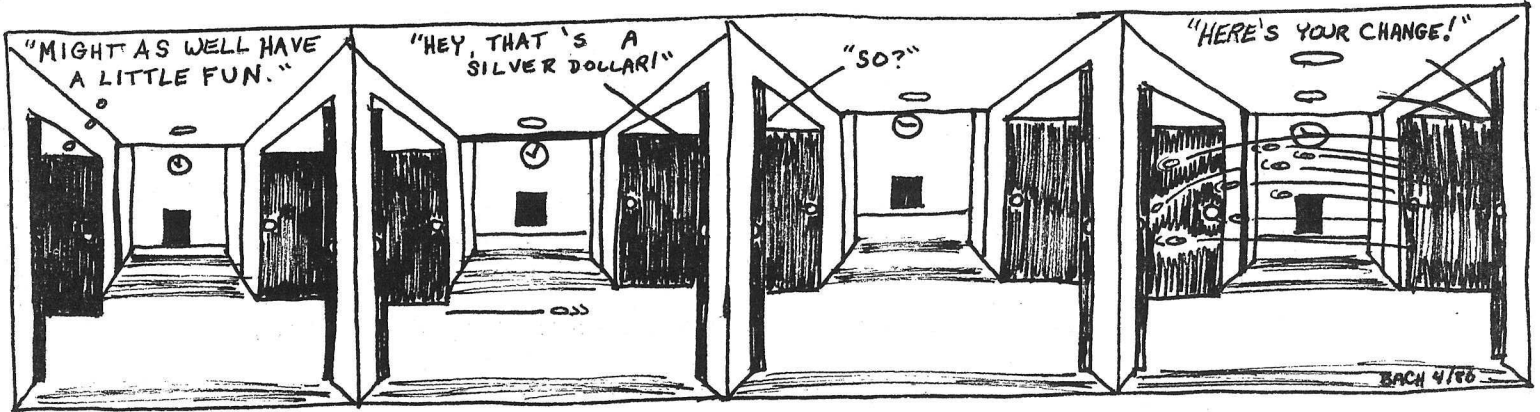

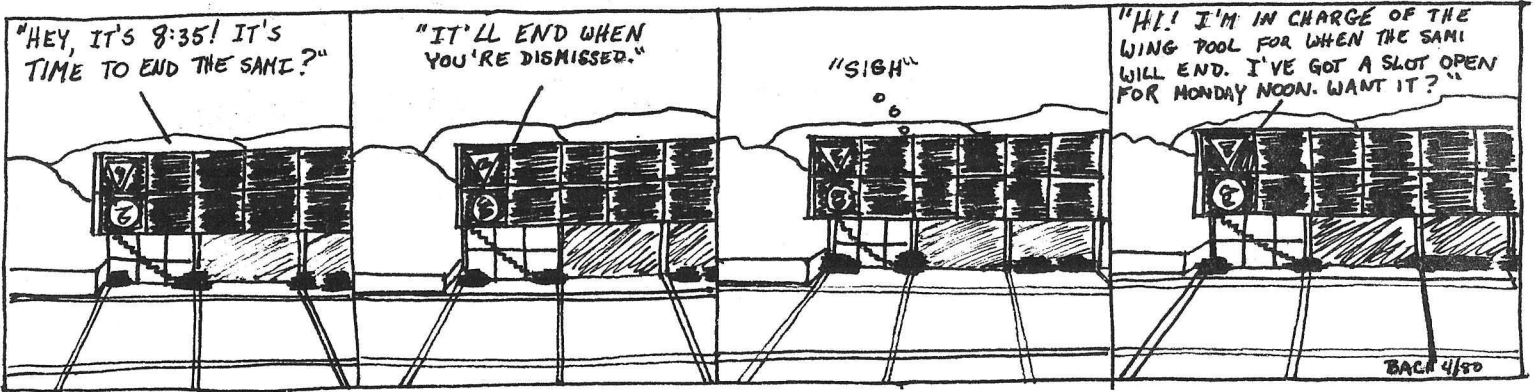

"Command Post the weekend of the \_\_\_\_\_ Boston Concert?"

# "SAFETY INFO"

## THE AIR FORCE CADET WING

Date: 19 May 1980

SEVENTH SQUADRON(USAFA) Think of how many times you have heard about drugs and alcohol at Saturday morning training. This cadet feels there is another potential danger to cadets which has not been emphasized enough. This substance is the devil's kernel, a crippler of young adults, a noxious substance which even Hitler once ate: Popcorn!

Popcorn is an obvious menace to the efficiency of the US Air Force. How could anyone fly a plane with both hands full of popcorn? Some cadets may feel popcorn is all right if it is kept on the ground. But the danger will still be there. Popcorn has been proven to lead to the hard stuff.

Fact: 87% of all heroin addicts admit to having used popcorn;

Fact: 67% of all communist pilots eat popcorn;

Fact: 73% of Japan's pilots ate popcorn regularly during WWII (Why do you think they lost the war?);

Besides the mental and psychological dangers of popcorn, there are also physical dangers. The process of preparing popcorn for internal consumption is rated extremely hazardous. Did you know that since the turn of the century over three persons have missed over 27 minutes of total working time due to injuries caused by popcorn "popping" (as it is called in the streets).

Fact: In 1874 Mr. Osgood Finsterwald was electrocuted while trying to pop popcorn in an electric popper while taking a bath.

The inherent danger of popcorn is obvious. So that cadets will not be injured through similar experiences in their rooms, popcorn poppers have been forbidden from cadet rooms.

In conclusion, let me misquote General George S. Patton: "If you can't get them to salute when they should salute, wear the clothes you tell them to wear, and pop what you tell them to pop, how are you going to get them to die for their country?"

# THE OSI TRAP

How old is it?

Only looking at a small piece of the problem can lead to a big mistake.

SCRATCH N' SNIFF

We make it simple.

#1 IN HIGH PERFORMANCE

But... is it Real?!

## ONE OF THE GREAT MISCALCULATIONS!

# Preferred 3 To 1!

Can They Really build a better trap?!

- Who will fall prey to this trap?
- Are there mice in Vandenberg hall?
- Do cadets like cheese? From Mitch's?
- Do cadets take ~~food~~ from Mitch's?
- Do you prefer crackers with a cut of cheese?

For the answers to these questions try OSI WAY TRAPS!
