

VOLUME 6 Nr 2

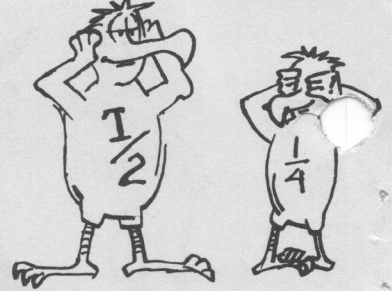

*A Cadet Publication for Cadets*

13 OCTOBER 1961

ALL CADETS ARE REMIDED THAT THEIR GYM LOCKERS WILL BE KEPT IN BEST ORDER AT ALL TIMES...

# EYES AND EARS

"When snows come can formal dances be far behind?!".....

## SEEN:

Colorado... The "Climate Capital of the World".... every time the snow and fog cleared...

Smiles in the "Eyes of Texas".... (They were glad to see us go.)

A Boat in the First Class parking lot????????.... Anticipating a monsoon?

Firsties scrambling madly through a stack of hubcaps.... this is a joke???

## HEARD:

Quotable misquotes;

"Sir, Mister Alfred Einstein invented the theory of relative humidity."

"Sir, a quote from 'Contrails' is 'We walked through the air while the other people flew through the ground; it was as simple as that.'"

Wasted Words.... Is there a Mech quiz tomorrow?... Did you get the EE Homework?...

### IBM QUIZ TAKING

Or you too can max the quiz....

### The Multiple Choice Question

#### The Quadrant System

1. Divide the clock into four quadrants (Fifteen seconds)
2. Assign each quadrant a letter from A to D (Questions with five answers make this difficult)
3. Read the question; gaze at the clock; note the letter
4. Presto, you have the correct answer.

#### The Graphite System

1. Lightly pencil four letters on your desk: A through D.
2. Grasp pencil between thumb and forefinger; spin it.
3. Read off the right answer nearest the point of the graphite.

#### The Empathy System

1. Find the longest answer (It is probably right)
2. If they are all the same length pick C.
3. If there is a "None of the Above" or an "All of the Above," pick it.
4. Never pick A.
5. If 1, 2, and 3 of above fall on the same answer, it is surely right.

#### The True-False Question

#### The Probability System

1. Carry a coin to class (This is hard if you are broke)
2. Assign the coin values i.e., heads-true: tails-false.
3. Proceed to a perfect score.

#### The Student Method

1. Study.

## WE GET LETTERS.....

There is a time in nearly every cadet's career, especially doolies' when missives such as this are received. This one is true and only the names have been changed.

Parenthetical remarks were supplied by the writer and other contributors who make it "The develish business of theirs" to lounge around bulletin boards reading the tales of woe. EJW

Dearest Bobby,

What I am about to write now is going to be very, very difficult. (This is the usual approach for setting the background)

We have pledged mutual faith and trust, Bobby, (Sort of like blood brothers) and I don't want to break that trust.

Bobby, as you know, Tom (Enter, Villain) came to see me at my grandmother's. (It all started at Granny's) His parents came with him and he stayed for six days. We were together night and day (This is where the plot thickens).... and they were six of the most wonderful days of my life. I know that you don't like Tom (At this point I think that is an understatement) You have told me many pretty (e.g.) awful things about him..... but in spite of all the terrible things you have said, I find him darn (Such Language!) wonderful.

Bobby, we are no longer children..... no longer playing games. (If you haven't been playing games, then no one has) In four years, we will begin life alone in the world. (You've got that "Alone" bit right, Honey) and these four years will determine our success or failure in that world. (The cruel, mean thing)

I don't know what to do now, Bobby. (You've already done it) I have told you the truth as I feel I must.... and now I don't know what to do. I hope you won't make me make a decision.... and I hope you won't ask me to give you up. (What are you starting, A collection?) Time (Time or Tom?) will tell, Bobby, that's all.

I'm sorry if this hurts you, I don't want it to. (Oh, no, I get letters like this all the time) but I felt that I best tell you the truth. And, Bobby, Please, Please do not be angry with me (Of course not, Doll, I just love your newsy letters)... and please don't try to hurt me. I could never

take that again. (Tell us about the first time) If you feel that you must break up with me (It seems that something is already broken) please be kind, Bobby, and please let me remain a very dear, dear friend (This is an absolute classic) and please let me still write you and send you food. (Make the letter small and the boxes big) I do love you. (And how many others?)

Love Always,

*Sandy*

(Please define always.

Does it equal one day, two days, or what)

P.S.

Bobby, please, please write to me..I have to hear from you. (Sure, Honey, you have inspired me so much that I want to sit down and write a nice, long, jolly love letter).....

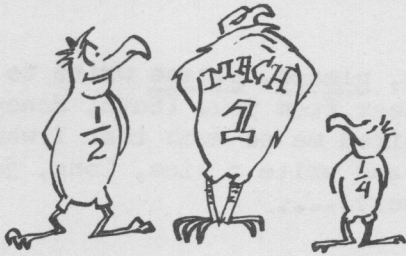

---

glamour is something that evaporates when the sweater is too large....

# THE DODO'S SECRETARY

APT: W/ Roommates  
JOB: Secretary, Cadet Dispensary  
LIKES: Swimming, Bowling, water Skiing, and  
Dancing.  
FROM: Moline, Illinois

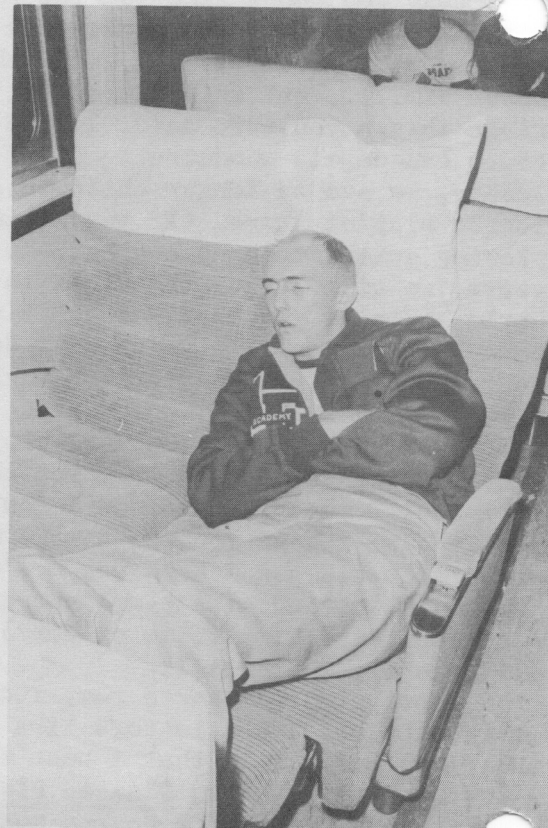

## THE DALLAS TRIP

Trip and Game by Hepburn

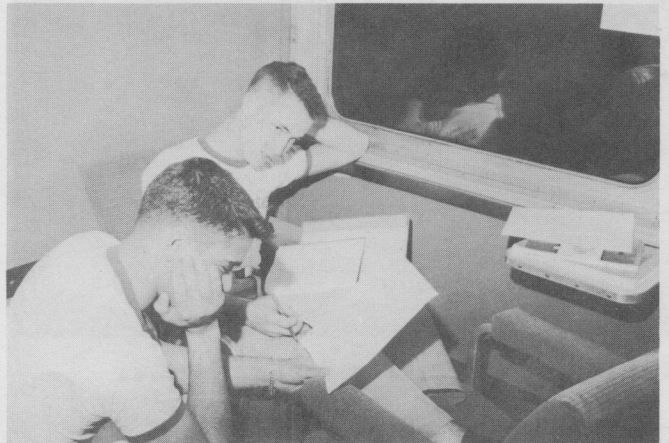

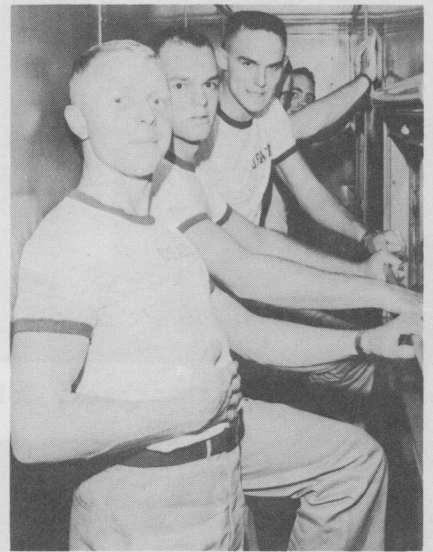

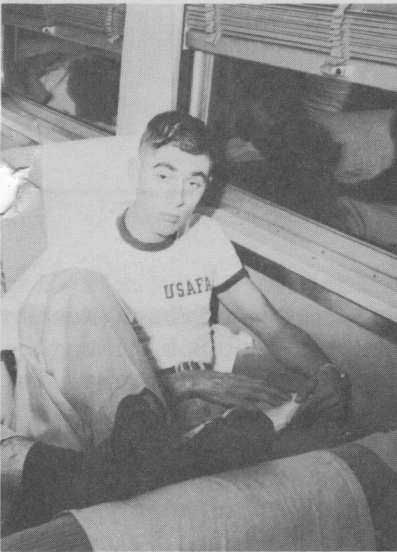

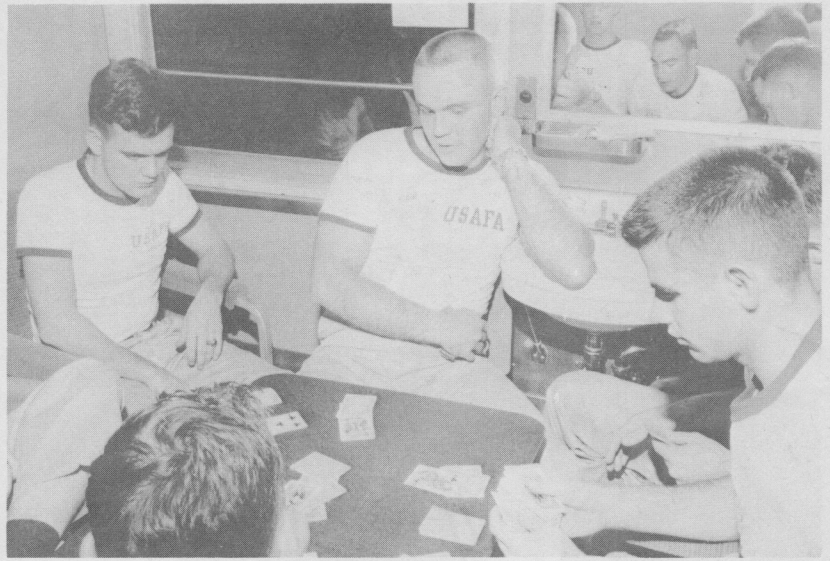

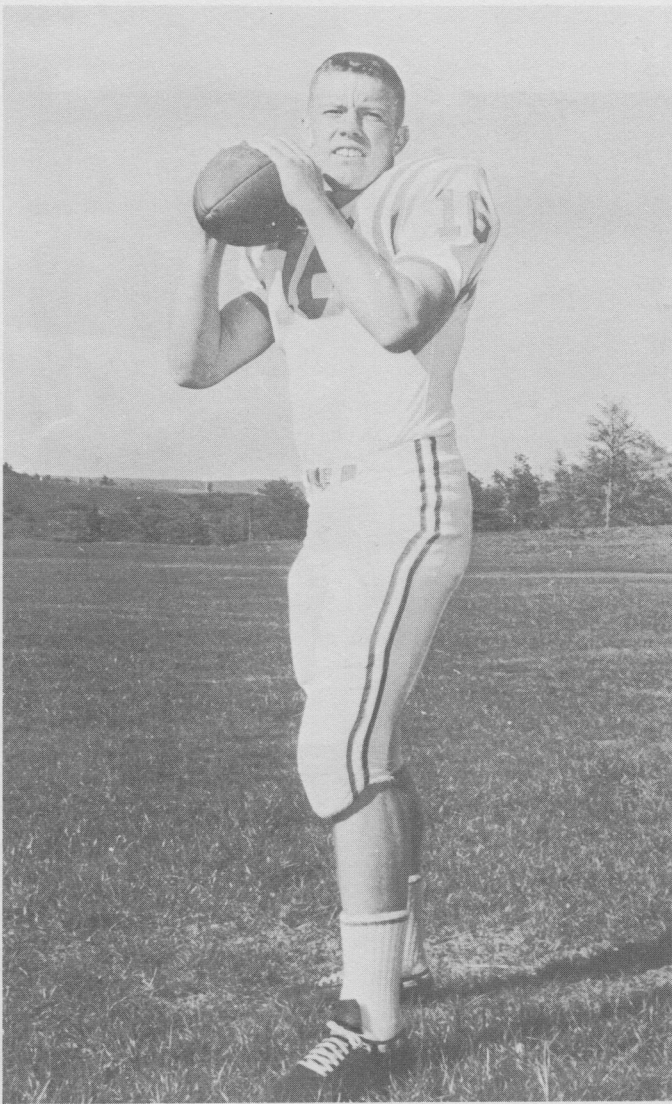

IT STARTED OFF SLOW....

AND GOT EVEN SLOWER....

BUT WE DID GET SOMETHINGS DONE.....

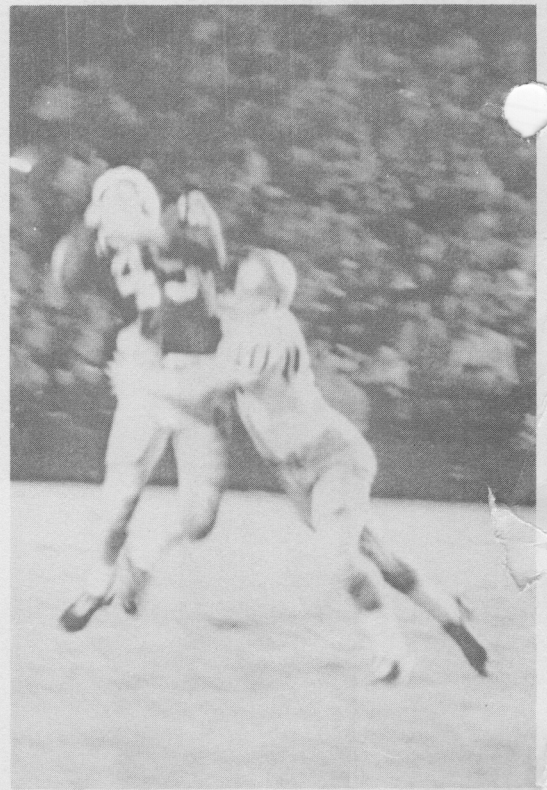

Senior Quarterback, Bob McNaughton

McNaughton Scrambles for Yardage...

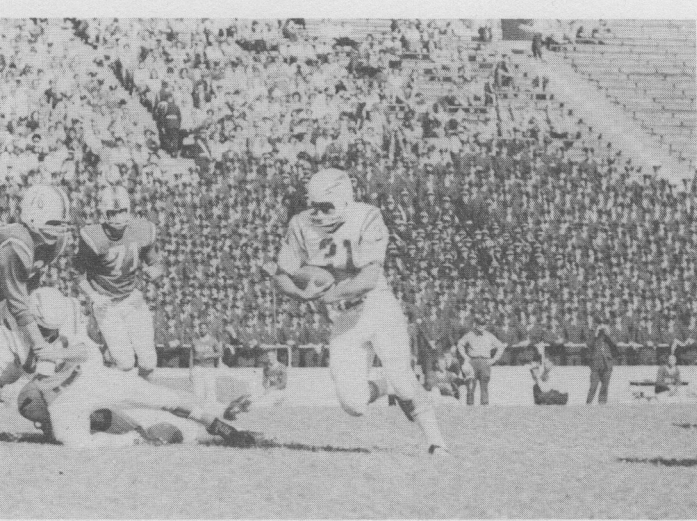

Terry Isaacson Pulls one in...

A gala offensive firework's display sparked by sophomore halfback Isaacson and senior quarterback Bob McNaughton failed to produce enough notches in the scoring column as a fumble plagued Air force Academy team plunged to a 14-12 defeat at the hands of an upset-minded Kansas State Wildcat squad.

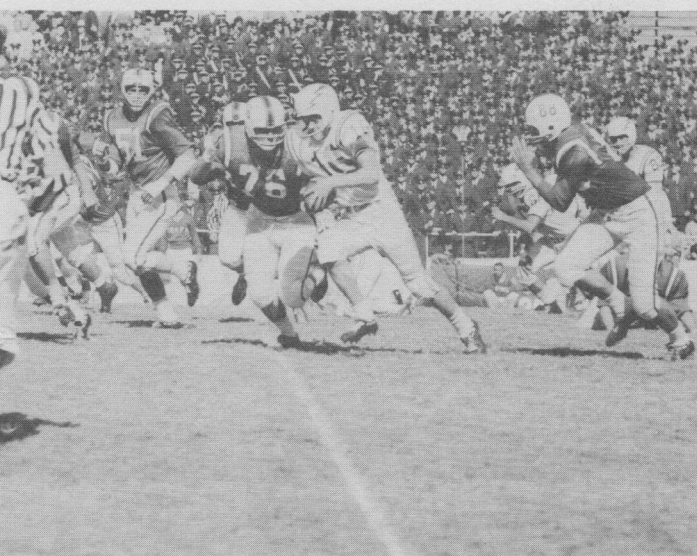

Although an unyielding Falcon defense led by tackle Lyle Wilson limited the Wildcats to only 124 yards on the ground while the Cadet offense, led by Terry's record-setting 107 yards gained rushing and Bob's masterful ball handling, was blasting the victors for 332 yards, the endzone seemed to elude the Falcons. Only on two occasions, one a one-yard dive by halfback Isaacson and the second a 34 yard pass play from Terry to end Mike Tietge, did the Academy push into the scoring area.

David Samuel

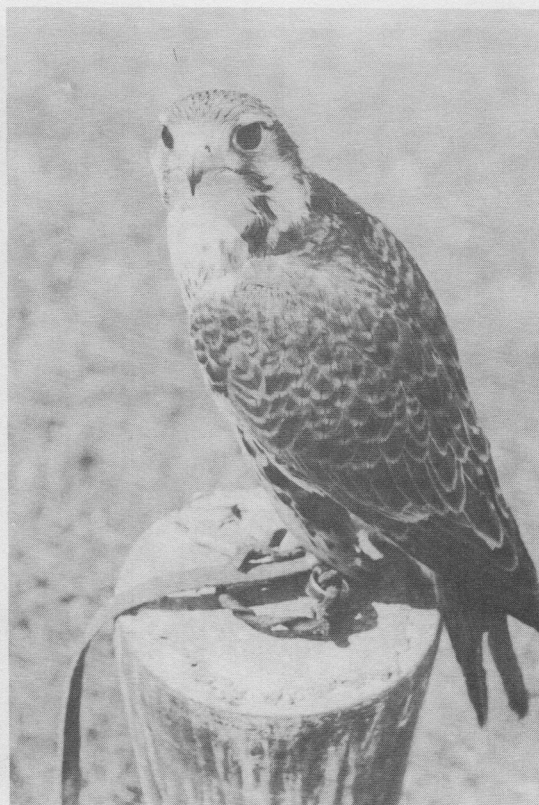

WE GAINED....

AND WE GAINED....

BUT SOMETIMES WE WERE STOPPED....

WHILE EACH I WATCHED....

---

A seemingly unorthodox field goal booted into the teeth of a strong wind by a barefooted placekicker, plus another attack of dread fumbleitis, proved the difference in a 9-7 Air Force loss to SMU in a game played in Dallas' mammoth Cotton Bowl. The contest was witnessed by 29,000 fans including the Cadets from the Academy's upper two classes.

A hard-hitting Falcon defense limited the victorious Mustangs to only 136 yards rushing, by the victors capitalization on Air Force errors to regain a place on victory lane after a fourteen-game drought.

The falcons' lone score, capping a 50-yard drive, came on a three yard burst by Fullback Arshinkoff. Wilson Parma booted the conversion.

AFB 0 7 0 0 - 7  
SMU 0 6 3 0 - 9

David Samuel

Give me a cadet, everytime....
