

6 Nr 3

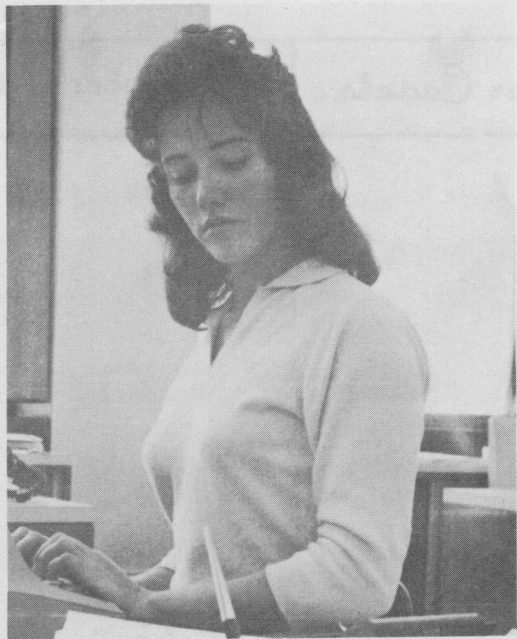

A Cadet Publication for Cadets

27 October 1961

..... SPECIAL THIS ISSUE....THE MAINTENANCE MEN.....

THE DODO'S SECRETARY

While on another sight-seeing trip, the DODO came upon this lovely sight in the Historical Division of the Office of Information.

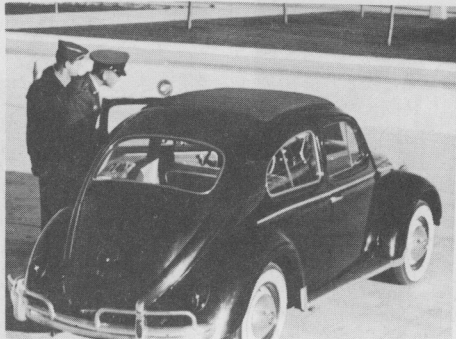

Miss Lorene Truman recently celebrated her first anniversary here at the Academy, and she loves it here. (We love you here too, Lorene).

She is 5' 6" tall, 19 years old, has brown hair and brown eyes. Lorene likes to date cadets; and her interests are water skiing, dancing and sports.

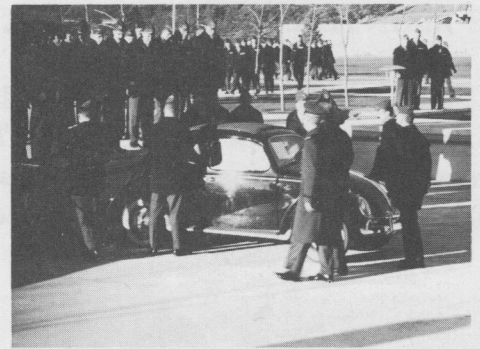

Lorene lives at 3935 Mariposa Street in Colorado Springs and drives a 1957 Ford convertible.

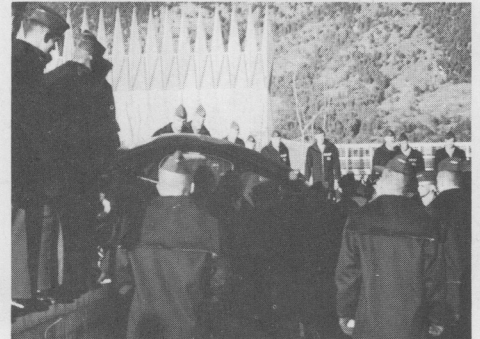

Ha, parking permit not for air garden pools.....

Are you sure this is my car?????????

We will have it out in just a second, Sir.

All right we need some more of you men.....

EYES AND EARS

Question time in the Rockies.....

Now that we've had a TV camera on every corner, how about a TV set in every room? Then we could see ourselves through the press & public eye.....

With all the zip guns converted for Flu shots, how about something to make it a tad less painful?..... ain't progress wonderful???

Keeping up with the competition is fine, but building walls is going a little too far ... is that to keep the cadets out..... the instructors in..... or the TV cameras away???

Quotables revisited.....

The reason women live longer than men is because they don't have wives.....

It's too bad we can't be educated and useful at the same time.

THE MAINTENANCE BOYS.....

Take an average day on the glass and steel complex called the Air Force Academy and you will see them working. They are often called the diggers and the fillers, but the men of the maintenance crew do a worthwhile job. Through cold and hot, through thick and thin, these men work to keep the average cadet's life free of the worries that only they can appreciate.....

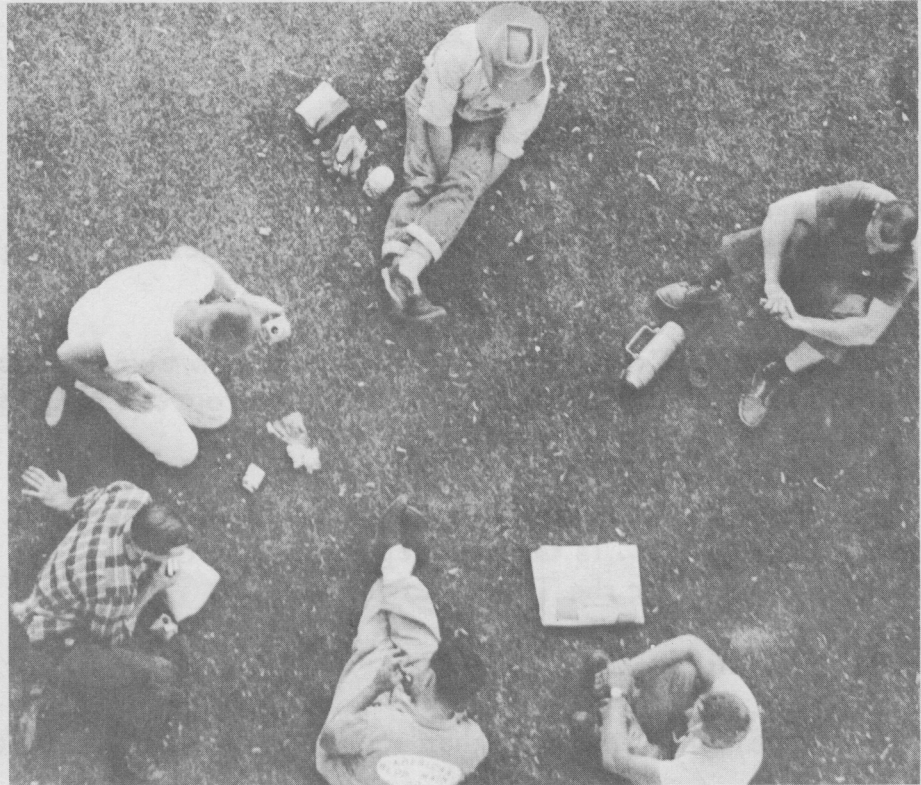

If that's the way you guys play I'm taking my marbles and going home.....

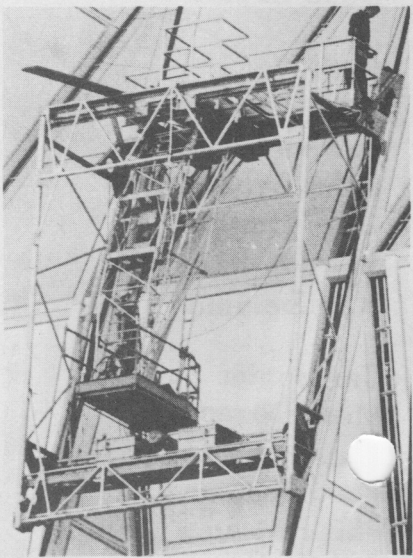

Well, I'll be damned,,, it's one cubit, by one...

Aw, look what you've done, and I worked on these for over an hour for IRI.....

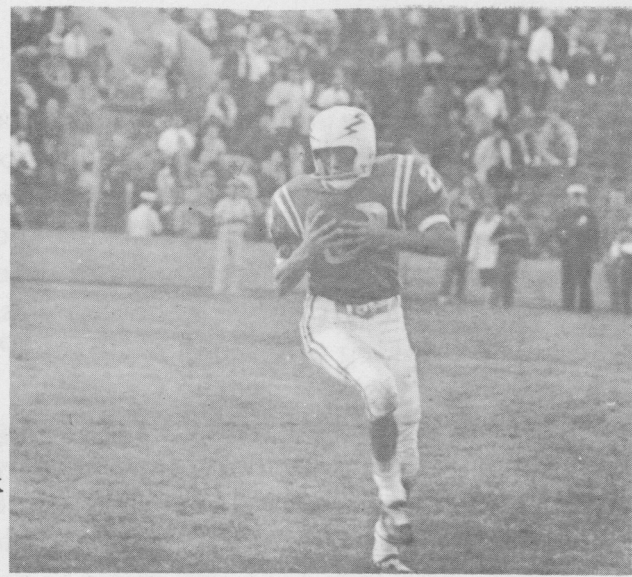

We should go on these more often.....

And, now on the high board.

A strong Maryland air arm pummelled a ragged Air Force secondary in paving the way to a 21-0 Terp victory. Although a hard charging Falcon line contained Maryland's ground attack, the victors capitalized on six interceptions and a precision passing attack in routing the outclassed Cadets.

Sophomore gridgers provided all offensive fireworks for the Falcons, with a parade of performances being turned in by All-American prospect, Terry Isaacson, 162-pound halfback Darryl Bloodworth, and Allen McArtor, who made a surprise appearance in the quarterback slot.

We ran, and ran....

DBS

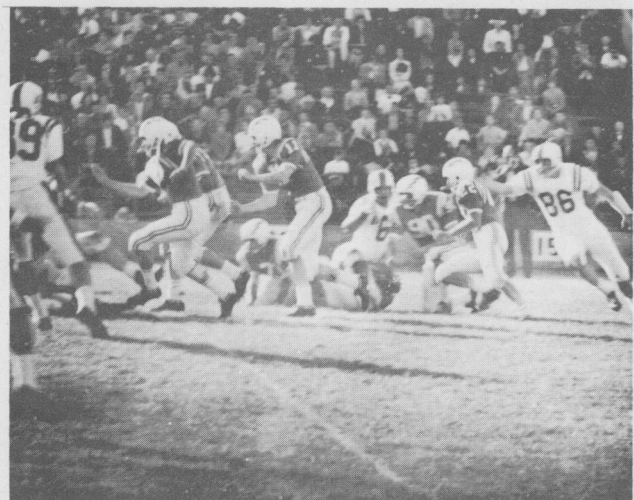

We tried....

But, they were better....

And tried....

And, the end results showed a Maryland win, and a Falcon loss.....

FALCONS DEFEAT CINNCINATI

Victory finally smiled on Air Force Academy gridiron quests, as the Falcons fought to a hard-pressed 8-6 victory over a stubborn Cinncinati University Bearcat team in an Oct. 14 victory. Shining defensive play in the Air Force secondary and the quick thinking of Falcon halfback Parma salvaged the victory for the Cadets.

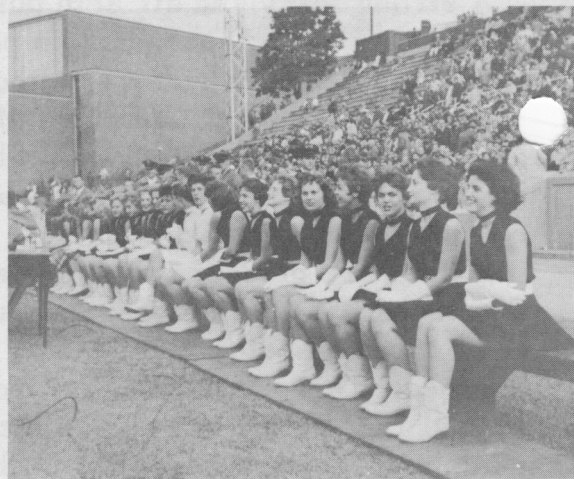

Three key Bearcat passes were snagged by alert Falcon defenders, the last by the Falcon standout Terry Isaacson crushing a last desperate CU thrust deep in Falcon territory with less than two minutes to play. Bearcat passing efforts were further hindered by fast charging Falcon linemen Fenske and Sicks.

The Falcons drew first blood, with Don Baucom's one yard plunge capping a Cadet drive following the opening kickoff. Recovering from a bad snap from center on the conversion attempt, the speedy Parma grabbed the loose ball and lofted a 2 point conversion pass to end Dick Brown.

AFA 8 0 0 0 - 8

CU 0 0 0 6 - 6

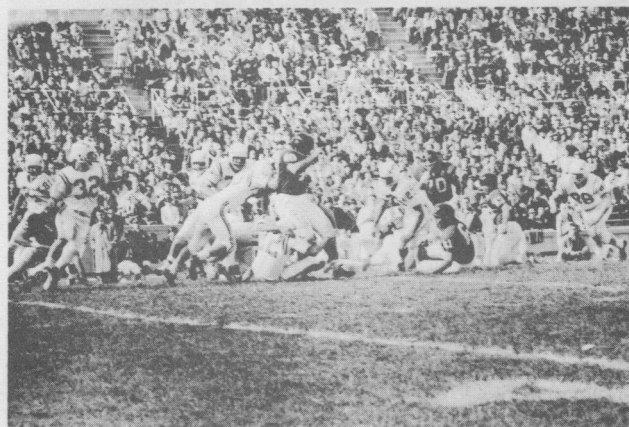

DBS

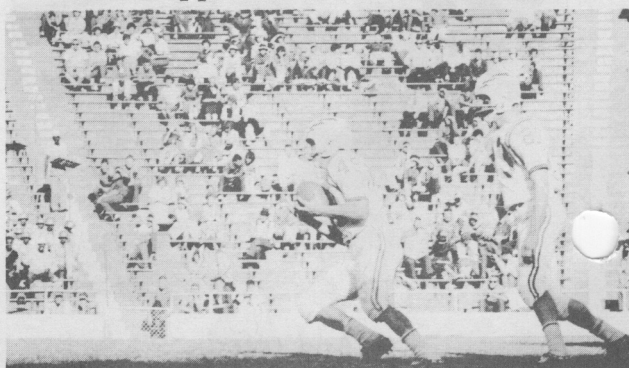

Very, very, good.....

Even though we were stopped.....

We stopped them too.....

And our runners started off fast.

That day everything looked good.....

A DATE WITH A CADET....
(Or what the girls have to say)

All cadets have dated the "Arnold Hall" girl (The girl who knows all of the things that are going on). Most of us have gotten sick of the trite comments that she makes, which seem to have been collected and practiced just for the occasion. But, how many of us realize that we appear the same way to the ladies? The Dodo has taken some of the things that cadets say for the girls to get their digs in.....

THE DATE

Hi, Mary, Say, how have you been? Yea, Yea, Uh, huh, I see.....
Say, is that a bottle of OLD GRANDAD that I see? Gee I haven't tasted that stuff for a long time.....
Huh, OH,NO, I rather not if it's all that you have..... Well, since you twisted my arm.....

INFER

Well, I just happened to hear about this little place, the food it is great, all you can eat for a buck!.....

STILL LATER

Say, it's eleven-thirty. We had better be getting back to the Academy, since it will take two hours to get back.....

ONE HOUR LATER

Gee, never made it back this fast before. Say, I just thought, have you ever seen Cathedral Rock at night????

Oh, look the road is closed! and we can't back out for all the cars. I guess this is where we will stay until they move out.

EVEN LATER

Hey, Venus is out tonight. You, say that you can't see it? Well, you can just see it from my window, if you lean out real far..... Yea, it's that large star just to the right of that little one there.....
Don't you think looking at stars is fun??

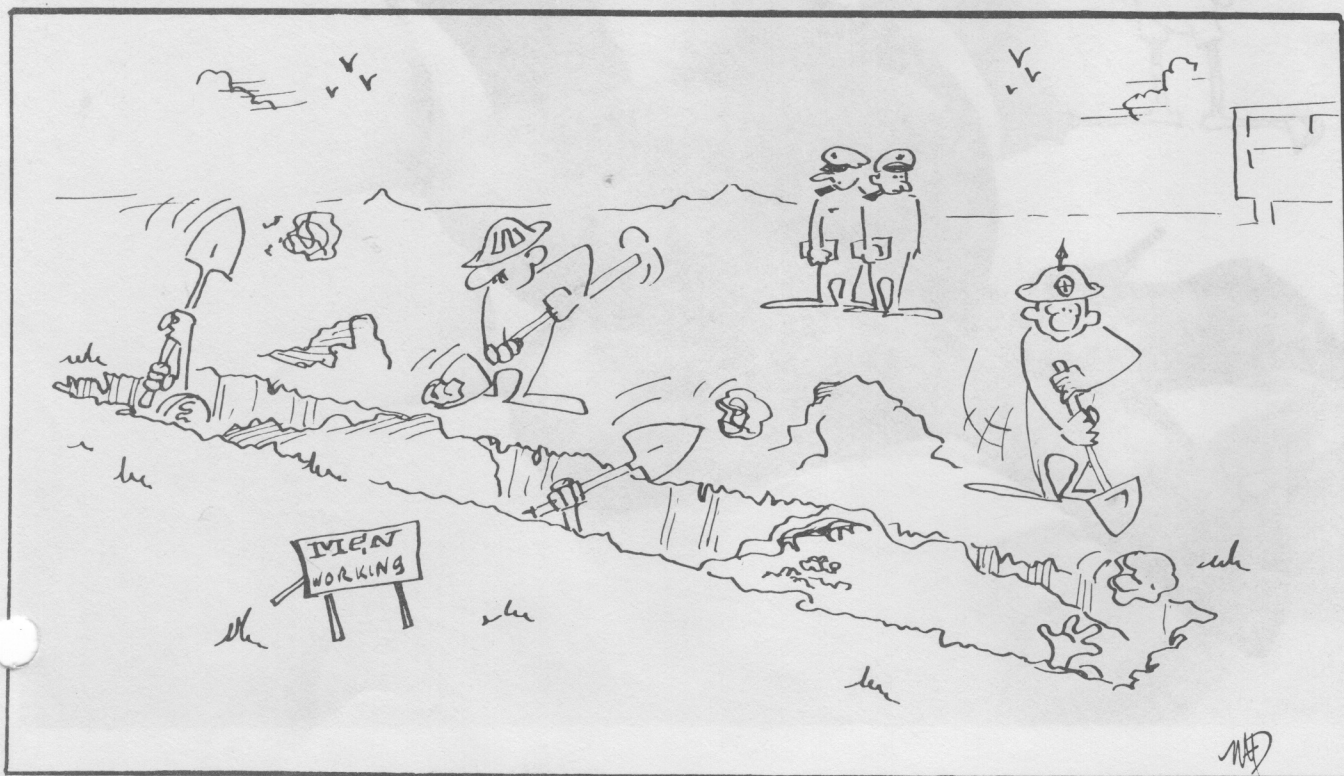

MUCH LATER

Did, anyone ever tell you that you have beautiful eyes???? They did?? Who was that??? I did?? on the last date.....

SIGN IN TIME

Well, Mary, it really has been great, Your father certainly has beautiful taste in cars, this one is a dream, power seats too.....

DAL & FMR

I'll be at the Cadet Club on Saturday
the 28. How, about you?
