Scandals Rock USAFA

Hola, dudes! Here's my very personal, up-close editor's page. This DODO has been dedicated to Christmas and our long-deserved break. A little finals stuff, but I figured you wouldn't want to see too much of that since Erlind has managed to provide us with so much happiness and satisfaction already.

I want to also introduce this issue as the first one in which a large portion of the work was done by — a staff! Hey, hey! Seriously, folks, I'm starting to show a couple guys how this thing's been getting made. So for those of you who were wondering about next year's DODO status, don't worry.

There's someone else to blame besides me!

Well, I'm gonna cut this short because I want to start studying for finals instead of enjoying myself making the DODO for y'all. And if you believe that.....

Merry Christmas to the whole Cadet Wing! (OK, to the officers too, OK, OK...)

### JOE'S LETTER TO SANTA:

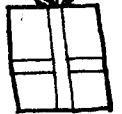

Attn: Claus, Santa  
Re: CIC Strack, Joe

The purpose of this letter is to inform you of the DEC '90 "wishlist" for CIC Strack. The following items are recommended although purchase is, of course, optional. (Funds may be available from the AOG)...

- \* New Service Dress
- \* Tape of Airborne cadences
- \* '91 BET calendar
- \* Wing Hostess cookie coupons
- \* Laundromat coupons (for uniform use of course)
- \* Jar of Saudi Sand (for motivational room decor)
- \* New pad of pocket Form-10s
- \* Honor Guard edge dressing

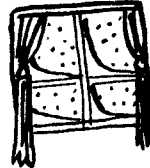

CIC Strack, Joe  
Wing Doc

Father! Your son requests permission to open his next gift!

Permission granted...  
... (sigh, yawn)

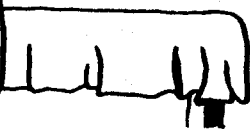

If Santa thinks he's going to land on the roof without reporting in first, he's DEAD wrong!

Mother! In your efforts to hang the stockings by the chimney with care, you forgot to properly space them!!

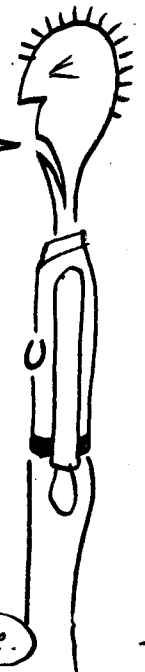

What are you talking about, dear?

7

Mom, Dad, that was the best Christmas ever. A new chin-o-matic, the Deluxe Kiwi shoe shine set, some extra metal taps, more plain black socks, white T-shirts and a white towel! Gee, even two new shiny Commandant's pins for my P.C. gear!! It makes a guy want to SOUND OFF!

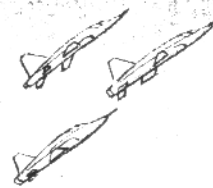

Uh, that's OK, son... don't... please.

Barbie

CLASS OF '82

Hey Barbie!  
yep HAIR'S out of Regs!

**The sky's the limit!**  
Captain Barbie epitomizes everything that women can do today. She's a pilot in the Air Force, where only the best are chosen to fly. Reporting for duty, Barbie wears a realistic one-piece flightsuit and boots. Her leather-like jacket with authentic insignia is just like the official A-2 leather flight jacket issued to mission qualified aircrew members. A blue flight cap and dashing aviator scarf make her flying ensemble complete.

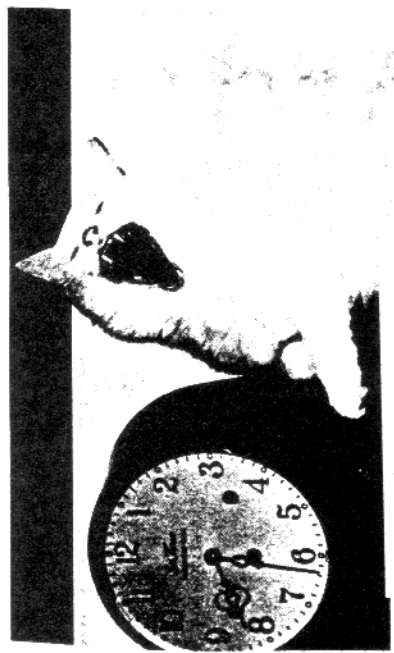

Barbie wears her uniform with style, and is proud to serve with the men and women in the U.S. Air Force.

Contents: Doll, flightsuit, flight jacket, cap, scarf, boots and brush.

Hey, WE weren't issued these!

(What I want to know is, where's Ken?)

# EXCLUSIVE REPORT: DoDo

Staff has learned the horrifying reason for why (AGAINST the logic of all decent men) a NEW NORTH GATE WAS built 200 yards further down the road: To stop the OTF RUNNERS.

A typical large, spacious 4-wheel-drive-OTF vehicle with lots of "storage capacity"

(like Nissan Pathfinder may be ???)

Infrared cameras lie in these bushes seeking out the heat of warm bodies lying in the trunks of cars.

This equipment room contains the government's most advanced technology as applied to the interdiction of OTF RUNNERS: a lie detector and 8 honor reps.

Interdicted OTF RUNNERS go to an interrogation hut where cadets practice their questioning skills for next summer.

You will answer my questions NOW! NAME? RANK? SEAT? DSB? ANSWER NOW!!

This is the location of the old gate. Now an S.P. car lies underground, ready to pop up at a moment's notice and pursue.

If all else fails, this bridge can be detonated from the gate to bring OTF RUNNERS to their demise. This is normally a last resort, because SCA approval is required.

## NO ONE ESCAPES EVER AGAIN!!

- Idea from C.C.B. SYKES

Starting monday, 4 DEC 1990 there will be a new schedule of calls. It is as follows:

4th classmen must be out of the shower by 0400.  
3rd classmen will be done cleansing by 0430  
2 smokes will scrub themselves by 0500.  
Firsties will be done and dry by 0530.

(Note: Any person in a shower stall for a time period exceeding 2.85 minutes will be subject to a class two offense of Gross Poor Judgement (20/20/1) for getting so dirty in the first place.)

Night Release from Quarters is at 0600. (Realize that the aforementioned shower times are before NRQ, so plan accordingly.)

1st morning accountability formation will be held at 0605 sharp. The uniform will be service dress. Rooms will be in strict AMI order. If all badges are not properly shined, shimmied, and spiffed you will be guilty of willful dereliction of AFCWR 537-4, Subparagraph DD Section X2, Appendix F. (Granted it is a heretofore unburied reg, but it is a reg nonetheless and we will enforce it as such.)

2nd morning accountability formation will be held at 0615 crisp. The uniform will be UOD, but since Command Post will not yet have announced it by this hour, it will be up to the individual cadet to guess what uniform he is supposed to be in. If he guesses incorrectly, he/she is obviously not too bright and certainly not worthy of cadetship. He/she will immediately be placed on conduct/aptitude/athletic/academic/MWR/military justice probation and receive an Article 15Z which is a little used subjugated annexation of an old copy of the UCMJ which actually was never amended. Therefore it still stands and we will back it whole-heartedly. You really don't want to know the full ramifications of the Article 15Z so just pray you are a good guesser because no upstanding cadet proud to be restricted in so many other ridiculous ways for so many real-life practical reasons could possibly tolerate a poor guesser, BY GOD.

First Call for Breakfast formation will be at 0630 hours. 4th classmen will start calling minutes at 0610 hours. Since we are reasonable reg-makers, we no doubt realize that this time coincides with the 2nd morning accountability formation. 4th

classmen will NOT miss formation, but they will not neglect their duty to call minutes. Hithertence, if the Flight Commander chooses to hold the 2nd morning accountability formation more than 1 minute, each 4th classman will receive a 10/10/Y for willful misconduct since everything is the smack's fault in the first place.

Cadets late to formation will be pooled together like dogs. If no legitimate excuse is tendered, you will be shot on the spot. If a valid excuse is offered, you will only lose a finger. Any cadet who loses more than 4 fingers will then have the option to have an ear cut off, or all cuticles removed. Of course any corporal punishment will be preceded by a form 10 hit of 100/100/13 just to see if you have what it takes to stick it out delimbed, and demotivated. (NOTE: No positive motivation will be tolerated. Any signs of positive motivation will be squelched immediately and those cadets guilty of this heinous offense will be on the receiving end of lethal injection.

Morning formation will last until at least 1/2 of the members of each squadron collapse from exhaustion (weakness). Weakness will not be tolerated, and these cadets will be disenrolled due to honor, and their names will never be spoken within the walls of this zoo for eternity.

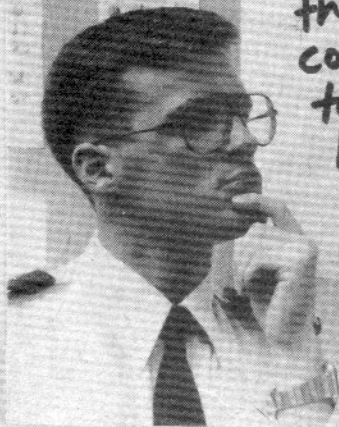

Once inside MITCHELL Hall, cadets will not be allowed to leave for first period until their class light turns on. The lights will all go on at 0755 hours. Cadets late to class, or maimed in the stampede to get to Fairchild Hall will be subject to such a ludicrous hit that we need take a few more weeks to make it up. In the mean time they will be confined to the tunnels beneath the terrazzo that we all know so well, but have never ACTUALLY been in on rations of bread and the old juice MITCHELL Hall used to serve. If they die down there, we don't really care anyway.

Be prepared for fourthcoming additions to this righteous CIF. In the meantime, all cadets are restricted to their rooms for mind crimes. Hey, its Free so you do what we tell you!

### Animal Rights Watch

Those crazy whacky Commies in Beijing are always good for a laugh: city officials have begun the "Wipe-Out-Dog Campaign," ordering all good citizens to "beat and eliminate" our canine friends so that Asian Games visitors will not have to encounter "malodorous droppings" while in town. If that truly is the goal of the program, the Chinese government could set a good example by first killing themselves.
