FAB

Seeing as how there isn't much for me to say about the condition of the wing (it's already being said by either this DODO or our friend Col. Rice), I'll just shut up like a good cadet and cut to the chase:

Attention in the area...

LETTERS TO THE EDITOR

DODO Staff:

If your grad circulation becomes significant, how about an "AOC Player Profile" feature. Grads returning as AOCs surely have smut in their backgrounds somewhere. As a civilian, I would be more than willing to reveal any I have on the class of '72 so it can be put to good use - BLACKMAIL. Keep up the good work.

Gary Grenier

Hey, Gary. First of all, our grad circulation is not good at all. I think we have a whopping one percent. And even if we did, I'm not sure the cadet wing would like to hear about AOC's past performances. I know about a couple officers here already and it makes me sick to my stomach to think that they are supposed to be our leadership role models. But thank you for offering the blackmail services.

TAV

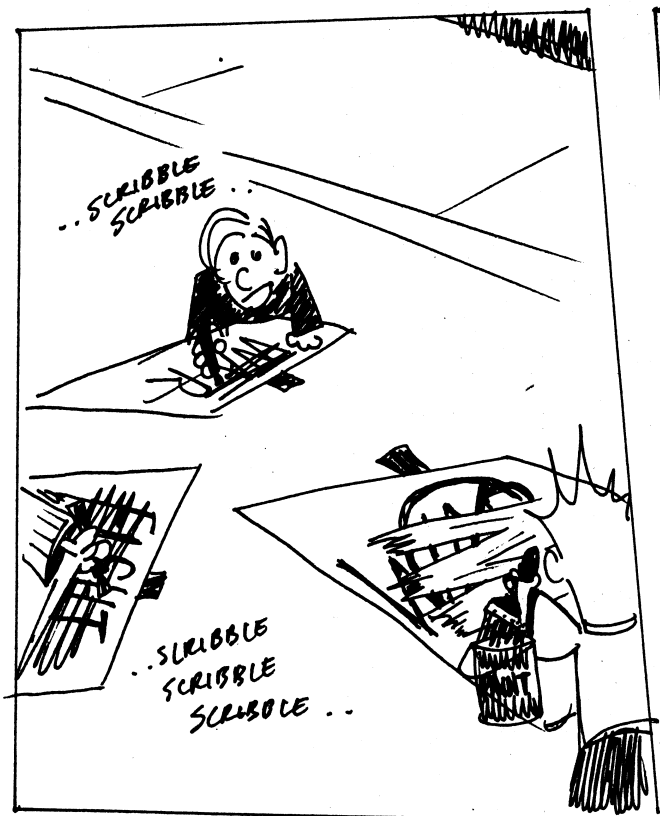

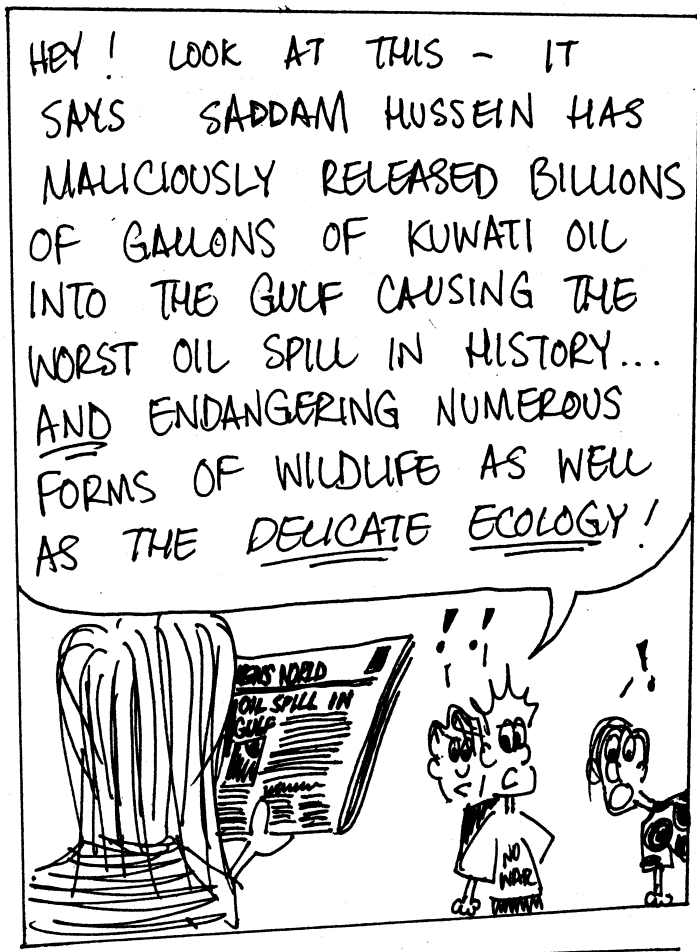

Hey Richard Cranium-

Keep 'em comin'! And while you're at it send me a few copies of the DODO. After I've read it, it then gets passed about the squadron so you're circulation is better than you may suspect.

You had printed a letter a few issues ago from a guy named *****, Cpt-type. Let me tell you, since he's semi-attached to my squadron (510 TFS) now, the guy lives in a dream-world. Take what he said with a large grain of salt. Ah, use the whole shaker. Let me give you my best piece of advice for after graduation, as I've summized after 3 years; "Be an adult, act like one and don't be so eager to find error in everyone else's ways." An organization doesn't need antagonists like that, it works much better when each person helps the other. If we go to war in the Middle East, as I will be there shooting those rag-headed tanks, you'll find we all must work together or we'll DIE. Simple and honest as that. I would be uneasy if my wingman was a guy like ***** who may not take the necessary chances needed to survive in combat.

Best of luck to you all at the zoo. Remember what you are getting into is reality and combat is our job. See you in the desert.

THE DODO, IN SEARCH OF MEANINGFUL ARTICLES, CAME UPON UNSPEAKABLE ACTS OF BRAVERY AND SELFLESSNESS AS DIRK ARMBRUST INSPECTS THE CADET AREA FOR TERRORIST BOMBS!

THOSE PATHETIC IRAQIS, BEING THE CAMEL SUCKING SWINE THEY ARE, PROBABLY RIGGED THE CHAPEL PEWS!..... NOPE.

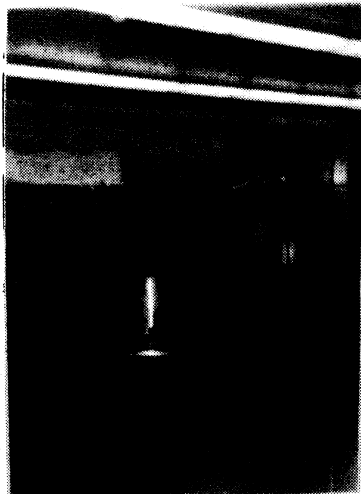

HOW ABOUT THIS DUMPSTER, TAY? NO BOMB, BUT IT SURE REMINDS ME OF MITCH'S THIS MORNING.

McDONALD'S, BURGER KING, WENDY'S, SOME CARDBOARD, A G.L.G. AND A THERMODYNAMICS BOOK, BUT NO BOMB !!

HERE I AM IN MITCH'S DISHWASHING ROOM.... NO BOMBS...

...NO SOAP, EITHER!!

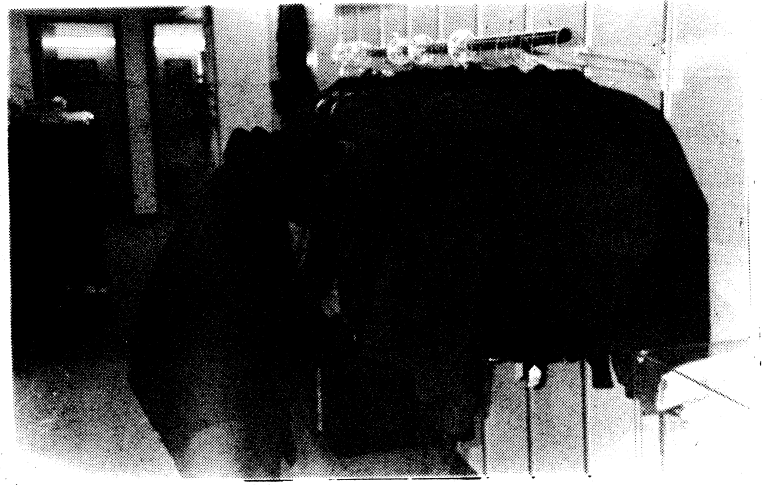

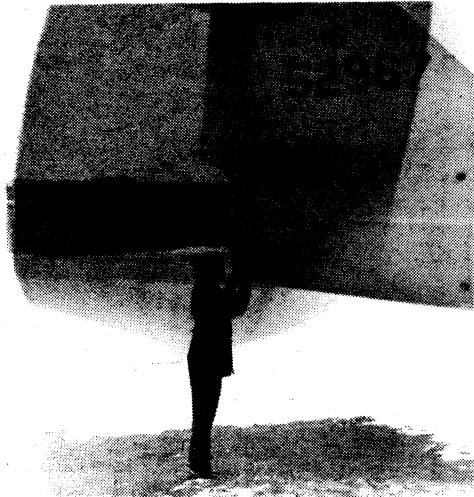

(LOOK AT THE SPOTS ON THESE GLASSES!.....)

PEEK-A-BOO!
A BOMB HIDING IN A BOOGER IS NOT VERY LIKELY.

HELLO? I GUESS AN IRAQI WOULDN'T BE KIND ENOUGH TO BLOW THIS JUNKHEAP UP.

WHEW! IT'S A GOOD THING SADDAM KNOWS BETTER THAN TO MESS WITH USAFA A-JACKETS AND 537-4!

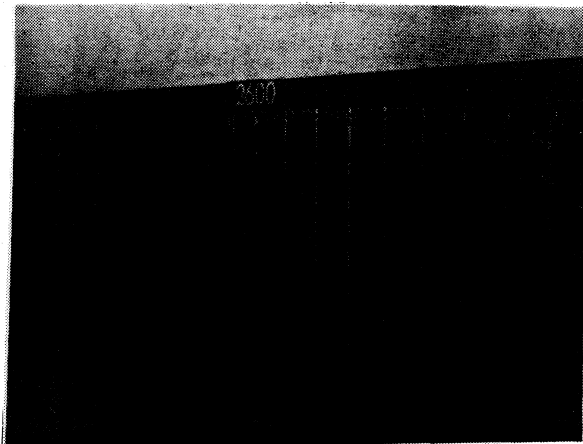

HOLD IT, CQ. IN YOUR EAGERNESS TO CARRY OUT YOUR WORTHY AND MEANINGFUL DUTIES, YOU MAY HAVE BECOME THE UNKNOWING VICTIM OF A SICK, DISGUSTING TERRORIST PLAN TO TAKE OUT THE COMMANDANT..... CARRY ON.

WELL, THAT WAS WORTH THE TIME. GUESS THERE ISN'T ANYTHING WORTH BOMBING.

WHAT NOT TO DO WITH AN ENGR 410 PROPOSAL

INSTRUCTIONS TO BIDDERS

JOB SPECIFICATIONS

1. The job we want did is clearly showed on the attached plans and specifications. Our engineer, whose had plenty of college, spent one hell of a lot of time. When he drew up these here plans and specifications. But nobody cannot think of everything! Once your bid is in, that's it brother! From then on, anything wanted by our engineer, or any of his friends, or anybody else (except the bidder) shall be provided by the bidder without expense to nobody, but himself (meaning the bidder).
2. If the work is did without no extra expense to the bidder, then the work will be took down and did over again until the extra expense to the contractor is satisfactory to our engineer.
3. Our engineers plans is right as-drawn. If sumthin is drawn wrong, it shall be dicovered by the bidder, corrected, and did right with no extra expense to us. It wont cut no ice with us or our engineer if you point out any mistakes our engineer has drawn. If you do, it will be one hell of a long time before you do any more work for us or him (meaning the engineer).
4. The bidder is not suppose to make fun of our engineer, his plans of the kind of work we're having done. If he do it's just too bad for him (meaning the bidder).
5. Any bidder walking around the job with a smile on his face is subject to review of his bid.
6. If the bidder don't find all our engineers mistakes before he bids the job, or if the bidder ain't got enough sense to know that our engineers going to think up a bunch of new stuff that's going to have to be did before the job is completely did, then it's just too bad for him (meaning the bidder).
7. The bidder gotta use all good stuff--none of this crap from Japan.

Skip : Hey Marc, you know what I hate?

Marc : No, Skip, what's that?

Skip : When you're out on the parade field and the cadink
commander salutes with that---

Marc : Sabre?

Skip : Yeah, and it flies off and skewers the SOD.

Marc : Oh, yeah, I hate that. And how about when you drive
your car on the terrazzo?

Skip : And the doolies don't salute?

Marc : Yeah, I hate that. I get so mad that---

Skip : You just want to run 'em over?

Marc : Yeah, I hate that.

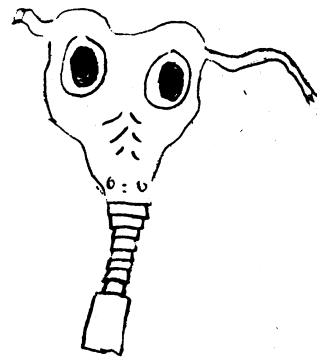

Skip : So do I. And what about that Corona Conference?
