# ARIBITRARY HUMOR

## EDETAUR'S PAEG

Auntie Em! Auntie Em! There's no place like home!! Well, leave starts soon, and state pride runs high. Everyone from Texas: shut up. Why is it that the Alamo State is the most vocal? Don't they know Wisconsin -where your most glorious Editor is from- is far superior? Lance Sijan was born and raised there, Billy Mitchell started and ended there, and Richard I. Bong lived there ('95: two buildings in the Cadet Area, and Ace of Aces, 40 kills). Besides our very own Wing Demander, Eric Rydberg, is from there (Ok, so we've got some problems, but we'll get around to them). So, hey, the two guys who have cars with Texas plates in the spots adjacent to mine, stop trying to park in three spaces at a time.

I want to take this time to thank everyone for making our first semester as a team go so well. The members of my staff -new and old- constantly amaze me both with their output and their capacity for eating pizza. Without their hard work, I couldn't get a Dodo to print. Well, I could, but most of it would be really stupid. We even have a Bonus Christmas Photo Insert at the middle of this issue. O boy!

It seems that both AOC's and instructors have finally realized that they are nobody until they appear in the Dodo. Hey, sirs/ma'ams; please stop sending me lists of dumb stuff you have done in the past week. We know you're silly people, but at least have the taste to wait your turn. Don't worry- we'll get to you.

As I edited this issue, I became concerned that Nazi has become a pronoun around here. This may just be paranoia, but one of my classmates warned me about two guys in Mitch's who discussed nailing me specifically for a bad uniform. The plan was that one would sneak up and smear that toast from the sausage pan on my shoes and the other would 'catch' me and write me up for greasing government property. <shiver> When cadets plot to write up cadets, it demonstrates moral degradation on the same scale as going to Burger King instead of McDonald's, or snorting Kiwi shoe polish. Some things are just too ugly to be true.

This Yugoslavian Peace Treaty scares me. If they increase violence during a ceasefire, there's going to be World War III at the signing of the treaty. Besides, the Croatians need a better name if they expect to garner world opinion. People would be more likely to root for a group named something like "the Kuuls" or "the Niceties". Or better yet "the Indiana Pacers". Croatia just sounds like a lung disease that involves copious amounts of phlegm, or fungus of some sort.

Time once again for MPA season. My favorite part is the debrief, where they ask you if you have any questions or comments. Oh yeah, like if you mention that time you planned the squadron CQ Phone Sex tournament your AOC is really gonna change your grade at the last minute. By the time the computer printout gets to your squad, it takes an act of Congress to change the damn thing, anyway. And there's that wonderful concept of giving civilian instructors input into how good a soldier you are. Following that train of thought, shouldn't my shirt garters raise my grade in Styrofoam Engineering 895, then?

Good luck on finals- remember, reading the Dodo is more important than studying. And happy holidays. We're back Jan 02.

How can they work on the terrazzo all day, every day, and not get anywhere?

## LOGIC LESSON #2

THE ACADEMY WAS MADE FOR OFFICERS.

- CADETS ARE PEOPLE
- AOC'S COULD NOT LEAD REAL MEN IN THE REAL AIR FORCE.
- CADETS ARE NOT CONSIDERED REAL SOLDIERS
- NOW, WORTHLESS OFFICERS CAN BE PROMOTED FOR LEADERSHIP AS AOC'S.

SO . . .

THE ACADEMY WAS MADE FOR OFFICERS.

## THINGS THAT MAKE YOU GO HMMMMMM...

It was 6:55 Friday morning (0655, whatever) when the rumor found its way into my room. It certainly caught me with my pants down. I guess that's 'cause I was still gettin' dressed for formation, but somehow it was an appropriate time. "You're going to need AOC permission for late lights now", my informant said. "HMMMMMM...", I replied. I docilely strolled to Mitch's for some slimy eggs, my brain numb from the completion of yet another hell week, but something was building inside me. Here I am, 21 years old, and I'm going to have to ask a Captain if I can stay up past midnight to accomplish all the crap that "they" have piled on me once again. I rose from the breakfast table and let out a blood curdling scream...well, O.K., maybe I just went "hMMMMMM", but nevertheless, it got me thinking that I sure have been saying "hMMMMMM" a lot since I got to this fine institution (remember, it's not a college but an institution and rightly so). So here it is... a list of "Things that make you go hMMMMMM". And believe you me, it is no where near complete:

- A form and AOC permission are needed to drive outside the 150 mile radius of USAFA (is that an arbitrary number or what?) and by no means can you drive past midnight, even if you're almost there, like 5 miles away (uh-oh better walk). That's if you're a stickler for the regs. Regardless, if you want to drive up to Fort Collins, then back down to Pueblo and then maybe out to Vail, and not even begin the trip until 12:34 in the morning, all you need to do is sign out. HMMMMMM...

- If Ac Call is so sacred, then how in the hell did the Geography department get SCA approval to have a briefing during Ac Call (from 8:00 to 9:00)???? I want to know??? (Not to mention I had to stay up past 12 that night to get crap done, oh noooo, write me up.)

- "Afterall, Secondclassmen were given cars just so they could drive to football games!" A quote taken from Gen. Redden while addressing us from the staff tower before the CSU game. If that's true, then why couldn't anyone drive to BYU??? (Naturally, that decision was made 24 hours before everyone was to take off and all their plans had been made)

- And speaking of BYU, how about those spirit T-shirts. Pretty cool huh? Nice tie-dye...so why can't we tie-dye USAFA T-shirts? Hypocrisy runs rampant...

- Just as a note, for all of us (especially me) who've ever marched tours for speeding, well the Supe got caught speeding last week. Yep, 56 in a 45. That's 11 tours, sir. And don't forget to report in to your commander and explain just what was running through your mind at the time.

- KAFA is a radio station for cadets right? Well how many of you honestly believe you get your money's worth out

8

of them? How many of you are really progressive music freaks. But hey, just remember the station is here to serve you...(cause you gave 'em 6 bucks)

- What makes a 2 degree suddenly responsible enough to own a plant? Shouldn't there be some special training or lesson for proper care and nurture of plant life so that cruelty to plants won't happen? Sounds like an appropriate M-5 lesson.

- Now wait, I'm at the AIR Force Academy. Most of us are going to FLY AIRplanes. We all have FLIGHTsuits. BUT WE NEVER FRIGGIN' WEAR THEM!!!! Why BDUs on warfighting day? When am I ever going to wear BDUs, BDUs don't motivate me to go out and kill commies. But a flight suit sure does!

- The three degree mentorship program has flopped, rolled over and died. Who's dumb idea was this. "We'll make 3 degrees train freshmen, but be their friends, well not really be their friends, but no way can they give them any consequences, but they should be out in the halls, but they can't do anything, well, they can make spot corrections, but only in a nice tone of voice, and if they get blown off well they can't handle that, no, no, they gotta have a 2 degree deal with that problem, and, well, they've got CQ and, and let's make 'em switch jobs every two weeks...no every two and 1/2 weeks, yea, wait I'm confused" Yea, me too buddy and so is everyone else in the wing. 3 degrees are perfectly capable of training, just give 'em the chance. The only way to learn leadership is by doing, not ATP lessons in M-5. Sheesh.

- Ah yes, and that brings me to my final one for today, top-off. I'm a firstie, how could I not talk about top-off? Heck, I began drooling way back in the summer when I heard the new Supe was going to let the firsties be real people and leave when they wanted to. What a vicious rumor. And then, during transition week they said they didn't want to use top-off as a carrot. Well, THEN YOU SHOULDN'T HAVE FRIGGIN' told us about what "you all call top-off" (nice Eric, open mouth, insert foot, swallow) 'cause here it is mid-term and everyone is P.O.'d that nothing is happening. Forget the carrot approach, but just think, I'm going to walk out of here in May and have no clue what to do with all my freedom and I'll probably kill myself on my motorcycle (which I will get thankyou very much). Otherwise if I'm not getting lost in a supermarket ('cause I only know where the beer is) or I'm not trying to figure out how to pay rent, I'm going to be going hog wild to make up for all the time I missed partying during my four years in hell. We learn a lot about marching here, but we don't learn much about living.

That's all for now, but that's not even close to being ALL. If you want to submit something that makes you go hmmmm, or you want to punish me for being a smartass, well I'm in CS-06, hope I see you soon.

## To Be An Air Force Pilot . . .

I want to be an Air Force pilot when I grow up because it's fun and easy to do. Pilots don't need much school, they just need to learn numbers so they can read instruments. I guess they should be able to read maps so they can find their way if they are lost. Pilots should be brave so they won't be scared if it's foggy and they can't see or if a wing or motor falls off they should stay calm so they'll know what to do. Pilots have to have good eyes so they can see through clouds and they can't be afraid of lightning or thunder because they are closer to them than we are. The salary pilots make is another thing I like. They make more money than they can spend. This is because most people think airplane flying is dangerous except pilots don't because they know how easy it is. There isn't much I don't like, except girls like pilots and all the stewardesses want to marry them so they always have to chase them away so they won't bother them. I hope I don't get airsick because if I do I couldn't be a pilot and would have to go to work.

# WHAT'S A "MELVIN"....?

DEAR FELICIA,

HEY GABE, HOW ARE YOU DOING? I'M DOING GREAT. I'M GOING DOWN TO THE AIRFIELD AGAIN TODAY. REMEMBER HOW I TOLD YOU THAT I'M AN INSTRUCTOR PILOT IN THE S6S-33 (S6S MEANS SUPERIOR GROUND STRIKE). AROUND HERE AT USAFA, WE IP'S ARE THE COOLEST, BADDEST, SMOOTHEST DUDES AROUND. WE WEAR THESE AWESOME FLIGHT SUITS (LIKE IN "TOP GUN") WITH OUR SLEEVES PULLED UP, AND OUR COLLARS TURNED UP (JUST A LITTLE, SO PEOPLE CAN STILL BE IMPRESSED BY OUR WHITE SCARVES). WE'RE SUPPOSED TO BE TEACHING SOPHOMORES TO FLY, BUT NO ONE REALLY CARES ABOUT THAT - WE'RE ALL IN COMPETITION TO SEE WHO CAN GET MORE SOLO FLIGHTS. BESIDES, AS LONG AS WE ALL GET TO EURO-NATO (THE ONLY PLACE WHERE REAL FIGHTER PILOTS ARE TRAINED) THEN WHO CARES ABOUT WHAT HAPPENS TO THE SOARING STUDENTS.

HEY, I WAS WONDERING, DID I LEAVE MY RAY-BANS IN YOUR CAR? I'M SORRY I COULDN'T DRIVE, BUT I ONLY HAVE ROOM FOR ONE ON MY HIGH-SPEED NINJA MOTORCYCLE - BESIDES, I'M NOT SUPPOSED TO OWN ONE ANYWAY (PLEASE DON'T TELL ANY OF THE SOARING OFFICERS, BECAUSE THEY'RE LOOKING FOR ANY REASON TO BUST CADETS). OH YEAH, WOULD YOU LIKE A T-SHIRT WITH MY NAME AND A PICTURE OF AN AIRPLANE ON IT? I CAN GET YOU ONE - REALLY.

OH WELL, I'D BETTER BE GOING, THE BUS IS COMING TO THE B.L.P. AT THE B.O.R., AND I'VE GOT TO GO GET MY TENNIS SHOES.

TAKE CARE FELICIA, WRITE SOON!

LOVE,  
SCHWICEMAN

40 CHRISTMAS

Falconlove is an ugly thing, if not the ugliest of things. The decayed and degraded state of emotional and sexual feeling which thinks nothing is worth a trip to the Springs is the worst. The cadink who has nothing for which he is willing to flight, nothing which is more important than his own personal satisfaction is a miserable creature, and has no chance of being free unless made and kept so by the exertions of better dinks than himself.

# THE REAL REASON BEHIND THE REG:

A CADET bed unit vibrating at  $2.5 - 5$  Hertz (wow!) sets the cadet room vibrating at its resonant frequency which perpetuates across the whole of the building. Thereby causing fatal failure of the load bearing members which leads to the eventual degradation of the entire foundation of the dormitory. This, my friends, is why there can be NO SEX in the dorms!

Code of Conduct for AOC's

Article I

I am an AOC, fighting in the forces which guard my pension, and my potential oak leaf. I am prepared to give a cadet's career in their defense.

Article II

I will never reduce a hit of my own free will. If in command, I will never allow the members of my command to reduce a hit while I still have the means to jack it up.

Article III

If I see a Form-30, I will make every effort to ignore it, and aid others to ignore it. I will accept neither sufficient reasons nor special circumstances from the cadet.

Article IV

Should I be forced to read a Form-30, I will keep faith with the Group AOC. I will give no information, nor take part in any action, which might be helpful to the cadet. Since I am senior, I am in command. If the Group Aoc steps in, I will back him up in every way, even if he is wrong.

Article V

If questioned, when I write a Form-10, I am required to give demerits, tours, confinements, and restrictions. I will evade giving favorable documentation to the utmost of my ability. I will make only oral and written statements disloyal to my cadets and harmful to their weekends.

Article VI

I am an AOC, fighting for points, and dedicated to the micromanaging that made my cadets miserable. I will trust in my Form-10, and the great parking lot monitor.

Aero Engr 215: Fundamentals of Aeronautics 1(1) Serious bone job class, good thing that everyone has to take it (even History majors). Almost entire grade based on whether or not a stupid model can fly around the field house longer than the prodigy Aero majors' in your class. Final ~~██████~~. BITES

Astro Engr 320: Intro to Astronautics 1(1) Intro my ~~██████~~! If you're not a computer geek, stay away!! Some cool movies, though, for some good in-class rack time. Final really ~~██████~~. BITES

Beh Sci 110: General Psychology 1(1) Actually, this class isn't so bad, 'cause you take it when you're a four degree and all of the instructors are also the counselling center dudes and if you get a bad grade you can blame it on the training system. Only 2 tests and a final!

Civ Engr 310: Air Base Design and Performance 1(2) If you get the chance, leave before you have to take this class. You spend umpteen hours designing two stupid ~~██████~~ air bases just so the instructor can bomb the ~~██████~~ out of them and give you a "D" because your runways weren't long enough for the C-5's that had to transport the ~~██████~~ that was backing up your sewage lines. The only redeeming qualities of this class is that it has no final and you waste one whole day trying on chem warfare gear.

Vaseline Rating:

1 Jar ~~██████~~ : one of the better classes to take (it won't hurt so bad)

You still didn't answer what you wanted to hear at KAFA but maybe you don't really have a desire, just hate progressive. I'm just totally sick of people bitching about the station. I want to know why we can't play college music. Yes, I'm familiar with the U of Wisconsin system. I attended the 1987 World Affairs Seminar at the U of Wisconsin at Whitewater and we did break a little ground. I just stand for what KAFA is, a little rebellion against the norms of our restricted world. Your articles really ~~me~~ me off because everyone seems closed minded to anything alternative or progressive. If you don't like it here, leave. I don't understand the connection between beers and progressive music, but oh well. So you got "yarbles", so does the progressive crowd. We just express some of our opinions through our music.

uhhhh...Let's see here; does everyone at KAFA think it is about rebellion? If so, does anyone in the administration here know that? Because I sure as hell don't want my money going towards any rebellion whatsoever. I thought this place was about discipline, and if you didn't know about that facet of USAFA before coming, you had two whole years to catch a clue. Maybe I'm not the one who should consider what I am doing here. And I hope you guys stick to expressing yourself through music- when you write it down or say it, you sound pretty silly.
